POST-OFFICE

GLASGOW DIRECTORY

FOR

1857, 1858.

ARRANGED IN THREE DIVISIONS,

GENERAL, STREET, AND COMMERCIAL;

TO WHICH IS ADDED,

A SUBURBAN DIRECTORY,

WITH AN APPENDIX CONTAINING GENERAL AND LOCAL INFORMATION.

THIRTIETH ANNUAL PUBLICATION.

GLASGOW:
PRINTED BY WILLIAM MACKENZIE, 45, 47 HOWARD STREET,
FOR THE LETTER-CARRIERS OF THE POST-OFFICE.
1857.

PRICE FIVE SHILLINGS & SIXPENCE.

PREFACE.

THE Publishers of the POST-OFFICE GLASGOW DIRECTORY beg to return their acknowledgments for the very liberal patronage hitherto bestowed on the publication, which, for thirty years, they have had the honour to conduct. It has ever been their aim to prepare it as accurately as possible, and, from time to time, to introduce such improvements as the means placed at their disposal would permit.

On no former occasion have greater exertions been made in order to arrive at accuracy; and, notwithstanding the many difficulties peculiar to a work of this description, the Publishers indulge the hope that their exertions this year will prove satisfactory.

The Publishers beg to call attention to certain new features introduced into the Map, which, so far as Glasgow is concerned, have not hitherto been attempted by the publishers of any other Map of the City. These consist of an alphabetical arrangement of the Names of about six hundred Streets, &c., with Index, guiding at once to the locality where such Streets are to be found; together with Lists of places of interest and public importance, comprising—Banks, with their Branches; City Omnibus and Country Coach Offices, Courts, Fire-Engine and Police-Offices, Judicial and Government Offices, Newspapers, Post-Offices, Pillar Letter-Boxes, Railway Offices, Telegraph Offices, Arcades, Bathing Establishments, Bazaars and Markets, Bridges and Ferries, Burying Grounds, Cab Stands, Canals, Clubs, Exchanges, Gardens and Parks, Halls, Hotels, News-Rooms and Libraries, Public Monuments, Miscellaneous, &c.,—which, to strangers and visitors, must prove invaluable; and to all classes, however well acquainted with Glasgow, both useful and instructive.

Copies of the Map, laid on cloth, in neat cloth cases, can be had at the Post-Office, Railway Stations, and of all Booksellers. Price 1s. 6d.

POST-OFFICE, GLASGOW,
1ST JUNE, 1857.

FOUR-FIFTHS, or 80 per cent., of the profits are assigned to policies every fifth year, and may be applied to increase the sum insured, to an immediate payment in cash, or to the reduction and ultimate extinction of future premiums.

One-third of the premium on insurances of £500 and upwards, for the whole term of life, may remain as a debt upon the policy, to be paid off at convenience; by which means £1,500 may be insured for the present outlay otherwise required for £1,000; and the Directors will lend sums of £50 and upwards, on the security of policies effected with this Company for the whole term of life, when they have acquired an adequate value.

SECURITY.

Those who effect insurances with this Company are protected by its large capital from the risk incurred by members of mutual societies.

CLAIMS.

Since the commencement of the Company upwards of £1,000,000 sterling has been paid in claims and additions to the sum assured.

Insurances without participation in profits may be effected at reduced rates.

The Assured are not charged with Policy Stamp Duty.

N.B.—The attention of the public is invited to the 54th section of the Act 16 and 17 Victoria, cap. 34, by which an abatement of income tax is allowed on such portion of income (not exceeding 1-6th) as may be applied to the payment of premiums of assurance.

Prospectuses, Tables of Rates, and every information may be had by applying to the following

ALMANAC AND TIDE TABLE.

FROM JUNE 1857, TILL JUNE, 1858.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerale effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Celeste* the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1·63 feet, and the height by the moon's influence to be 7·28 feet; consequently the height of their joint force to be 8·91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lubbock, Esq., London (the Tide Table in the *Nautical Almanac* for 1857 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

ECLIPSES OF THE SUN AND MOON.

In the year 1858 there will be two Eclipses of the Sun and two of the Moon.

I.—A partial Eclipse of the Moon, February 27, 1858, visible at Greenwich.

II.—An angular Eclipse of the Sun, March 14–15, 1858, visible as a partial cone at Greenwich. Begins on the earth generally, March 15, 31 minutes past 9 A.M., mean time at Greenwich, in longitude 50° 47′ west of Greenwich, and latitude 4° 26′. General eclipse begins March 15, 42 minutes past 10 A.M., in longitude 67° 50′ west of Greenwich, and latitude 11° 19′ north. Central eclipse at noon, March 15, 44 minutes past noon, longitude 8° 45′ west, latitude 45° 44′ north. Central eclipse ends generally, March 15, 28 minutes past 1 P.M., in longitude 64° 40′ east of Greenwich, and latitude 69° 19′ north. Ends on the earth generally, March 15, 39 minutes past 2 P.M., in longitude 49° 44′ east of Greenwich, and latitude 53° 46′ north. At Greenwich a partial eclipse is visible, and begins March 15, 41 minutes past 11 A.M. Greatest phases March 15, at 1 o'clock P.M. Ends March 15, 17 minutes past 2 P.M. At Cambridge a partial eclipse is visible, and begins March 15, 43 minutes past 11 A.M.; ends March 15, 18 minutes past 2 P.M. At Oxford a partial eclipse is visible, and begins March 15, 35 minutes past 11 A.M.; ends at 11 minutes past 2 P.M. At Edinburgh a partial eclipse is visible; begins March 15, 30 minutes past 11 A.M. Greatest phases 47 minutes past noon. Ends at 2 minutes past 2 P.M. At Dublin a partial eclipse is visible, and begins March 15, 11 minutes past 11 A.M. Greatest phases 29 minutes past noon. Ends at 46 minutes past 1 P.M.

III.—A partial Eclipse of the Moon, August 23–24, 1858, visible at Greenwich.

IV.—A total Eclipse of the Sun, September 6–7, 1858, visible at Greenwich. Begins on the earth generally, September 7, 33 minutes past 11 A.M. Ends on the earth generally September 7, 44 minutes past 4 P.M. At the Cape of Good Hope a partial eclipse is visible, September 7, 27 minutes past 4 P.M. Ends 41 minutes past 5 P.M.

EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of High water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

Required the time of high water at Peterhead, January 4, 1858.

On June 5, 1858, the sun's longitude at noon, 74° 28′ 5″ and the obliquity of the ecliptic 23° 27½′ required the sun's declination.

To the log. sine of the sun's longitude at noon, 74° 28′ 5′,.....	9·983843
Add the log. sine of obliquity of ecliptic, 23° 27½′,.....	9·599972
The sum (rejecting 10°) is the sine of the declination, 22° 33′ 12″,.....	9·583815

Required the time of the sun's rising and setting at Glasgow, in latitude 55° 52′ north, longitude 4° 16 west, on May 10, 1858.

By a table of semidiurnal arcs, the approximate time of the sun's rising and setting is—

Rising,.....		4 h.	8 m.	Setting,.....	7 h. 52 m.
Longitude in time of Glasgow,.....	+ 0	17 m.		..... + 0	17
	4	25		8	9

The sun's declination reduced to these times is 17° 32′ and 17° 42′, and the polar distances are 72° 28 and 72° 18′. The horizontal refraction, less the sun's parallax, is 33′ — 9″ = 32′ 51″. Hence the following computation:—

Zenith distance,.....	90° 33′			90° 33′

NOTE.—The latitude of Glasgow is 55° 52′ north, the longitude 4° 16′ west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks of Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich mean time.

JAMES YUILLE,
Teacher of Mathematics, Navigation, and Nautical Astronomy.

STAMP AND LEGACY DUTIES, &c.

Note.—The 13th and 14th Vict. c. 97, imposes a duty according to the number of words in deeds, by a general rule applicable to all deeds where progressive duty is not expressly charged by the schedule to the act. For the progressive duty on a deed when none is expressly charged under the instrument, reference must be made to the head "PROGRESSIVE DUTY."

(INLAND BILL) DRAFT or ORDER, after 10th October, 1853, for the payment of any sum of money to the bearer, or to order, on demand,.....1d.

And the following instruments shall be deemed and taken to be drafts or orders for the payment of money within the intent and meaning of this act, and of any act or acts relating to the stamp duties on bills of exchange, drafts, or orders, and shall be chargeable accordingly with the stamp duties imposed by this act, or any such act or acts, viz.:—

All documents or writings usually termed letters of credit, or whereby any person to whom any such document or writing is or is intended to be delivered or sent, shall be entitled, or be intended to be entitled, to have credit with, or in account with, or to draw upon any other person for, or to receive from such other person any sum of money therein mentioned.

Exemptions from the Duties on Drafts or Orders.—All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers, exempt from stamp duty at the date of the Act 17 & 18 Vict. c. 59. These are drafts on bankers who shall reside or transact the business of a banker within the distance of fifteen miles of the places where such drafts or orders shall be issued. They must specify the place where issued, and bear date on or before the day on which they are issued, and not direct the payment to be made

by bills or promissory notes. In reference to this exemption, the Act 17 & 18 Vict. c. 83, § 7, provides that they shall not be remitted or sent to any place beyond fifteen miles in a direct line from the bank or place at which the same are made payable, or be received in payment, or as a security, or be otherwise negotiated or circulated at any place beyond that distance. Penalty on Persons sending or receiving such drafts, £50. Section 8th provides, that unstamped drafts, received within fifteen miles, on the adhesive stamp being affixed and cancelled, may be received and negotiated beyond that distance.

All letters of credit, whether in sets or not, sent by persons in the United Kingdom to persons abroad, authorizing drafts on the United Kingdom.—16 and 17 Vict. c. 59.

Note.—The duty on drafts or orders may be impressed on the paper, or an adhesive stamp may be affixed.—16 & 17 Vict. c. 59, § 3. The adhesive stamp may be either a receipt or draft stamp. —17 & 18 Vict. c. 83, § 10. Where an adhesive stamp is used, the maker of the draft to cancel the stamp by writing on it his name or initials. Penalty for omission, £10. Penalty for removing adhesive stamps or using them a second time, or doing any act to defraud of duty, £20.—16 & 17 Vict. c. 59, § 4 and 5.

3000	—	4000...13s. 4d.
4000 and upwards.....		15s.

N.B.—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November, 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, ib. § 6. This applies only to bills drawn within and payable out of the United Kingdom.

Inland Bill, Draft, or Order for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

Inland Bill, Draft, or Order for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

Where the money secured or to be ultimately recoverable *shall be limited* not to exceed a given sum,—The same duty as on a bond for such sum.

Where *uncertain* and *without any limit*,—The same as on a bond for a sum equal to the amount of the penalty.

Where there is no penalty, the bond shall be available for such an amount only as the *ad valorem* stamps will cover.

PERSONAL BOND given as security for the transfer or retransfer of any share in any of the *Government* or *Parliamentary Stocks* or *Funds*, or of the *Banks of England* or *Ireland*, or of the *East India Company*, or of *any other company* or *corporation*,—The same *ad valorem* duty as on a bond for a sum of money equal to the value of the stock or fund secured, according to the average price at the date of the bond, or on either of the ten days preceding: or the latest day preceding on which there shall have been a known sale.

PERSONAL BOND given as security for the payment of *any sum of money*, or for the transfer or retransfer of *stock secured also by a wadset*, or other instrument paying duty as a wadset, or for the performance of covenants contained in such instrument, or for both those purposes, provided such other instrument *bear even date* with, and be referred to in such bond—

Where the sum of money or the value of the stock secured shall not exceed £800,—The same *ad valorem* duty as on a mortgage or wadset for securing the like amount or value.

Exceeding £800, £1.

PERSONAL or HERITABLE BOND given as an *additional or farther security* for the payment of any sum of money, or for the transfer or retransfer of any share in any of these stocks *previously secured by a bond* or other security therein referred to, which has paid the proper *ad valorem* duty on bonds at the date thereof,—

Where the sum or the value of the stock shall not exceed £1400,—The same *ad valorem* duty as on a bond or mortgage for securing the like sum or value.

Where said sum shall exceed £1400, £1 15s.

BOND—*Transfer or Assignment*, disposition or assignation of any such bond as aforesaid, and which has paid the proper *ad valorem* duty on bonds—

Where the principal money or stock secured by the bond shall not exceed in whole £1400,—The same duty as on a bond for the total amount or value.

And in every other case such transfer, assignment, disposition, or assignation shall be chargeable with the duty of £1, 15s.

PERSONAL or HERITABLE BOND given as the only or principal security for payment of any *annuity* upon the *original creation and sale thereof*,—The same *ad valorem* duty as on a conveyance upon sale in consideration of the sum or value given or agreed for the purchase.—See Duties on Conveyances.

PERSONAL BOND given as a *collateral* or *auxiliary* security for the payment of any *annuity* upon the *original creation and sale*, where granted or conveyed or secured by any other deed or instrument, paying the *ad valorem* duty of conveyances upon the sale of any property—

Where such *ad valorem* duty shall not exceed 20s. such bond shall be chargeable with a stamp duty of equal amount therewith.

And where such exceeds 20s., £1.

PERSONAL or HERITABLE BOND given as a security for the payment of any *annuity* (*except upon the original creation and sale*), or of any sum or sums of money at stated periods (not being interest or rent upon a lease), for any definite and certain term, so that the *total amount* to be paid can be previously ascertained,—The same *ad valorem* duty as on a bond of the like nature for the payment of a sum of money equal to such total amount.

PERSONAL or HERITABLE BOND given as a security for payment of any *annuity* (*except as aforesaid*), or of any money at stated periods (*not being interest nor rent upon lease*), for the term of life or any other indefinite period, so that the whole cannot be previously ascertained,—

Where the annuity or sum secured shall not exceed £50 per annum, £1.

Exceeding £50 and not exceeding £100 per annum, £2.

And where exceeding £100 per annum, then for every £100, and also for any fractional part of £100 per annum, £2.

But where there shall be both a personal and heritable bond in separate deeds of the same date for securing any such annuity, &c., and the *ad valorem* duty above charged amounts to £2 or upwards, the heritable bond only to be charged with *ad valorem* duty, and the personal bond to be charged only with a duty of £1.

BOND of any kind or description *given for any other purpose than as aforesaid*,—The duty chargeable by any Act in force at passing 13th and 14th Vict., c. 97.

But no such bond shall be charged with any greater amount of stamp duty than the *ad valorem* duty before charged upon a bond given for the pay-

ment of a definite and certain sum of money of the same amount as the penalty of such bond.

BOND or RELIEF to a cautioner or surety, £1, 15s.

BOND for the due execution of an office, and to account for money received by virtue of such office, £1, 15s.

BOND given for, or in respect of, duties of customs or excise, or for preventing frauds or evasions thereof, or for any other matter relating thereto —relanding of plate—registering of British vessels,—5s.

HERITABLE or PERSONAL BOND, of any kind whatever, not otherwise charged nor expressly exempted from all stamp duty, £1, 15s.

Note.—The above provision, that the duty shall not exceed the *ad valorem* duty on a sum the same amount as the penalty in the bond, applies to the four preceding entries.

CHARTER, DISPOSITION, or CONTRACT (after 10th October, 1854), containing the first original constitution of *feu* and *ground-annual rights in Scotland* (not being a lease or tack for years), in consideration of an annual sum payable in perpetuity, or for any indefinite period, whether fee farm or other rent, feu-duty, ground-annual, or otherwise:—

500	...	550	2	15	0
550	...	600	3	0	0

And where the purchase and consideration money shall exceed £600, then for every £100, and also for any fractional part of £100; 10s.

It is directed that the purchase money or consideration shall be *truly expressed* and *set forth in words at length* in or upon every deed or instrument of conveyance; and where such consideration shall consist either wholly or in part of any stock or security, the value thereof respectively, to be ascertained as after mentioned, shall also be truly set forth as aforesaid in or upon every such deed or instrument; and such value shall be deemed to be the purchase or consideration money, or part thereof, as the case may be, in respect whereof the *ad valorem* duty shall be charged.

And where the consideration or any part of the consideration shall be *stock* in the public funds, or any government debenture or stock of the banks of England or Ireland, or any debenture or stock of any corporation, company, society, or persons or person, *payable only at the will of the debtor*, the duty shall be calculated (taking the same respectively, whether constituting the whole or a part only of such consideration) according to the average selling price thereof respectively on the day or on either of the ten days preceding the date of the deed or instrument of conveyance, or if no sale shall have taken place within such ten days, then according to the average selling price thereof on the day of the last preceding sale, and if such consideration or part thereof, shall be a mortgage, bond, or debenture, the amount whereof shall be recoverable by the holder, or any other security whatsoever, whether payable in money or otherwise, such calculation shall be made according to the sum due thereon for both principal and interest.

In any case where property shall be sold and conveyed in consideration of any rent-charge or annuity, or any annual or periodical payment to be made permanently or for any indefinite period, so that the total amount of the money to be paid for such property cannot be previously ascertained, which rent-charge, annuity, or other payment, shall be made, subject to redemption or purchase upon terms and conditions specified in the deed or instrument, whereby the property sold shall be conveyed to, or vested in, the purchaser, or any person by his direction, the money or the consideration mentioned in the said deed or instrument as that on payment or transfer, delivery, or satisfaction, of which the said rent-charge, annuity, or other payment, shall be redeemed or purchased, or repurchased, or shall cease to be payable, shall be deemed to be the purchase money or consideration, on the sale of the said property so sold and conveyed, and in respect of which last-mentioned purchase money or consideration, the *ad valorem* duty shall be chargeable; and where any such last-mentioned consideration shall consist wholly, or in part, of any stock or security mentioned in the Act 13 and 14

Vict., c. 97, the value thereof shall be ascertained as in such Act is in that behalf provided; and where any such annuity, rent-charge, or other payment aforesaid, shall be made, subject to redemption or purchase, or repurchase or discontinuance, upon payment or satisfaction of any money or value to be ascertained or calculated in manner provided in the said deed or instrument, the amount of such money or value shall, for the purpose of charging the said *ad valorem* duty, be ascertained or calculated, as in such deed or instrument shall be so provided. 16 and 17 Vict., c. 59, § 11.

COPIES or EXTRACTS from the public register, or from books of any court of record, 2s. 6d. And where the same shall contain more than 600 words, any less quantity of words over and above the first 600 words, or above any second, third, or other full quantity of 600 words, a further duty of 2s. 6d.

Copy attested of any agreement or deed for the *security or use of a person not being a party or taking benefit under it*, 1s.

Progressive duty for every 720 words, 1s.

Copy attested of a will, testament, or codicil, or of a confirmation of a testament, testamentary or dative, same duty as above.

COPYRIGHT OF DESIGNS, Certificate of, £5.

COVENANT.—Any deed containing a covenant for the payment or repayment of any sum, or for the transfer or retransfer of stock, in any case where a mortgage, if made for the like purpose, would be chargeable under this schedule with any *ad valorem* duty exceeding in amount £1, 15s.; or for the payment of any annuity, or any sums at stated periods, in any case where a bond for the like purpose would be chargeable with any such duty, the same *ad valorem* duty as on a bond respectively for the like purpose.

When it is an additional security to a properly stamped bond referred to in it, the *ad valorem* duty here charged not payable.

Exemption.—Any covenant contained in a deed chargeable under MORTGAGES or SETTLEMENT.

As to the duties in the first column, if the rent shall be under £20, and if a sum of money, by way of fine, premium, or grassum, shall be paid, the same duty as on a *conveyance on sale;* if the rent shall be above £20, both the *lease duty* and *conveyance on sale duty.* In the case of a lease, to which the second and third columns apply, where there is a fine, premium, or grassum, and whatever the amount of rent, both the *ad valorem* lease duty and conveyance on sale duty.—13 and 14 Vict. c. 97; and 17 and 18 Vict. c. 83.

LEASE or TACK made for any term or period less than a year, at a rent reserved or payable for the same, shall be chargeable with the same *ad valorem* duty as a lease or tack, at a yearly rent of the same amount as the sum so reserved or payable.—17 and 18 Vict. c. 83, § 23.

LEASE or TACK of any mine or minerals, or other property of a like nature, either with or without any other lands or heritable subjects, *where any portion of the produce shall be reserved to be paid in money or kind*—

If it be stipulated that the value shall amount at least to a given sum per annum, or it be *limited* not to exceed a given sum, to be specified, then the *ad valorem* duty shall be charged in respect of the *highest* of such sums.

And where any *yearly sum* is reserved in addition to or together with such produce, relative to the yearly amount or value of which there is no such stipulation or limitation, the *ad valorem* duty shall be charged in respect of such yearly sum.

And where *both a certain yearly sum and also such produce* relative to the yearly amount or value of which there shall be such stipulation or limitation is reserved, the *ad valorem* duty shall be charged on the aggregate of such yearly sum, and also of the highest yearly amount or value of such produce.

N.B.—Where a grassum or rent is in grain, it is to be charged according to the stipulated rate of conversion, and if none be stipulated, according to the fiars on an average of seven years. Where there are separate grassums or rents payable to separate *pro indiviso* proprietors in the same deed, the stamp is on the *cumulo* amount.

* Term not exceeding 35 years.
† Above 35, but not above 100 years.
‡ Exceeding 100 years.

LEASE or TACK, of any kind, not otherwise charged £1, 15s.

ASSIGNMENT or surrender of a lease or tack upon any other occasion than a sale or mortgage,—A duty equal to the *ad valorem* duty with which a similar lease or tack would be chargeable under 13 and 14 Vict. c. 97; but where a similar lease would be chargeable under said act with any stamp duty amounting to £1, 15s. or upwards, such assignment or surrender shall be chargeable with a duty of £1, 15s.

And no stamp duty, except the *ad valorem* duty, shall be chargeable for any lease, expressed to be granted in consideration of the surrender of an existing lease and also of a sum of money.

And where the same exceeds £300, for every £100, and fractional part of £100; 2s. 6d.

Where the deed is made as a security for the repayment of money, *to be thereafter lent, advanced, or paid, or which may become due upon an account current*, together with any sum already advanced or due, or without, other than any sums to be advanced for the insurance of any property comprised in such security against damage by fire, or for the insurance of any life or lives, or for the renewal of any grant or lease upon the dropping of any life or lives, pursuant to any agreement in any deed whereby any estate or interest held upon such life or lives is granted, assigned, or assured, or whereby any annuity is granted or secured for such life or lives—

If the total amount of the money secured, or to be ultimately recoverable, *is limited* not to exceed a given sum,—The same duty as on a wadset for such limited sum.

And if the total amount *is uncertain and without*

any limit, then the same shall be available as a security or charge for such an amount only as the *ad valorem* duty denoted by the stamp will cover.

And where the same is made as a security for the transfer or retransfer of any share in any of the government or parliamentary stocks or funds, or of the Bank of England, or of Ireland, or of the East India, or of the South Sea Company, or of any other company or corporation, in consideration of stock, or money advanced or lent at the time, or previously due and owing, or foreborne to be paid, being payable,—The same duty as on a mortgage for a sum equal to the value of the stock or fund secured according to the average price at the date of the mortgage, or on either of the ten days preceding, or on the latest day preceding on which there has been a known sale.

And where the same respectively shall be made, as a security for the payment of a sum of money, and also for the transfer or retransfer of a share in any of the said stocks or funds, the said *ad valorem* duty shall be charged in respect of each.

And in case the same respectively shall be made, as a security for the payment or transfer, to different persons, of separate and distinct sums or shares,—The *ad valorem* duty shall be charged for each separate and distinct sum or share therein specified and secured, and not upon the aggregate amount.

And where any such deed or instrument shall be made respectively as a security for the payment of *any annuity*, or any sum by way of repayment, or in satisfaction or discharge, or in redemption of any sum lent, advanced, or paid, as or for or in the nature of a loan intended to be repaid, discharged, or redeemed, in manner aforesaid,—The same duty as on a mortgage or wadset for the sum of money so lent, advanced, or paid.

TRANSFER, disposition, or assignation of any wadset or other such security, &c.—

Where *no further sum* or stock shall be added to the principal already secured, if such principal shall not exceed in the whole £1400, the same duty as on a wadset, &c., for the total amount or value of such principal.

And if such principal shall exceed in value in the whole the sum of £1400, £1, 15s.

And where *any further sum* or stock shall be added to the principal already secured,—The same duty as on a wadset, &c, for such further money or stock only.

And in every other case not expressly provided for, £1, 15s.

Such instrument is not chargeable with further duty (*except progressive duty*) by containing any further or additional security for the payment, transfer, retransfer of such money, stock, interest, or dividends, or any new covenant, proviso, or other matter whatever in relation to such money or stock, interest, or dividends.

Any deed made for the *further assurance* only of any property already constituted a security, by a deed which has paid the *ad valorem* duty—

Also any deed made as an *additional* or *further security* for any sum, &c., already so secured.

Where the total amount or value already secured does not exceed £1400,—The same duty as on a wadset for the amount.

And in any other case, £1, 15s.

If any further sum be added to the principal, the deed is chargeable only (exclusive of progressive duty) with the *ad valorem* duty on wadsets, &c., in respect of such further sum.

RECONVEYANCE, surrender, discharge, or renunciation of any wadset, or other such security, or of the benefit thereof, or of the money or stock secured—

Where the total amount of the principal shall not exceed £1400, the same duty as on a wadset for the amount.

And in any other case, £1 15s.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force:—

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions, a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money. This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or any part thereof, amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money,—they will be liable to the receipt duty.

Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the granter is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—16 and 17 Vict., c. 59, § 3, 4, and 5.

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sasine of any houses, lands, or other heritable subjects holding burgage; also instrument of resignation of lands, &c., not held burgage, 5s. Progressive duty, 5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burgage tenure, 5s. Progressive duty, 5s.

SCHEDULE OR INVENTORY or heritage, or moveables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c., separate from and referred to in the lease, bond, deed, agreement, &c., chargeable with any stamp duty not exceeding 10s.—The same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.; 10s. Progressive duty, 10s.

SCRIP CERTIFICATE, after 4th Aug., 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing, 1d.—16 and 17 Vict., c. 63.

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or upon any consideration other than a *bona fide* pecuniary consideration, whereby any *definite and certain* principal sum or sums of money, or any *definite and certain* shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100; 5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100; 5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be chargeable with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles charge-

able with, and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

Exemption from this ad valorem *duty.*—Wills, testaments, and testamentary instruments, and dispositions *mortis causa.*

WRIT OF ACKNOWLEDGMENT by any person infeft of lands in Scotland, in favour of the heir or disponee of a creditor fully vested in right of an heritable security constituted by infeftment, 10s. —16 and 17 Vict., c. 63, § 6.

INVENTORY DUTY.

The duty is imposed on the inventory of the personal estate and effects of deceased persons, required to be recorded in the commissory courts according to the rates in the following Table, and is regulated by the amount of such estate in Scotland. The same rates of duty are payable on probates and letters of administration in respect of the personal property situated in England and Ireland:—

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict., c. 79, § 23, provides for a return being given on proof of the constitution and payment of the debts. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III., c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict., c. 59, § 8, such additional inventory shall be *chargeable only with such amount of stamp duty* as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, *shall make up the full* amount of *stamp duty*, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

LEGACY DUTY.

Legacies, Annuities, Residues, &c.

To children or their descendants, or lineal ancestors,	Duty per cent £1	0	0
Brother or sister, or descendant,	3	0	0
Uncle or aunt, or their descendant,	5	0	0
Grandnuncle or aunt, or descendant,	6	0	0
All other relations and strangers,	10	0	0

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship. —16 and 17 Vict., c. 51, § 11.

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

SUCCESSION DUTY, 16 and 17 Vict. c. 51.—The duty commences on the death of persons dying after the 19th May, 1853, and seems to be imposed on all property, both heritable and movable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

PERSONAL PROPERTY is liable to duty according to the value of the succession; and money charged on heritage—heritable securities—is chargeable as personalty (§ 1).

RATES OF SUCCESSION DUTY.

Lineal issue or lineal ancestor of the predecessor, £1 per cent.

Brothers and sisters of the predecessor and their descendants, £3 per cent.

Brothers and sisters of the father or mother of the predecessor and their descendants, £5 per cent.

Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, £6 per cent.

Any other person, £10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11). The following are also *exemptions* from the succession duty:

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18). 2. Any succession of less value than £20 in the whole (ib.). 3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (ib.).

Note.—The collection of the succession duty will form a branch of the business of the legacy department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

POSTAGE STAMPS, &c.

Prepayment of Inland Letters, &c., must be by Stamps.

RATES OF POSTAGE.

*Inland Letters.**

1. The rate of postage on all inland letters is regulated by weight, irrespective of distance, and (with the exceptions afterwards mentioned) is as follows:

If paid in advance—

Letter weighing not more than ½ oz., ... 1d.
Letter weighing more than ½ oz. but not exceeding 1 oz., ... 2d.
Letter weighing more than 1 oz., but not more than 2 oz., ... 4d.
Letter weighing more than 2 oz., but not 3 oz., and so on; twopence being charged for every additional ounce. 6d.

2. As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded, but is returned to the writer.

Colonial and Foreign Letters.

3. The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage at page 16.

Addresses to the Queen and Petitions to Parliament.

4. Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or are in covers open at the sides No letter or other enclosure, however, must be inserted, and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspapers and other periodical Publications bearing the Newspaper Stamp.

5. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

6. All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and re-transmitted through the post within the United Kingdom free of postage under the following regulations, viz.:—

1st. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were lately applicable only to newspapers properly so called. These restrictions are shown in the following table:—

Amount of Stamps impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letter-press on One Side.
One Penny - -	Two - - - -	2,295 inches.
Three Halfpence -	Three - - - -	3,443 „
Two Pence - - -	Four - - - -	4,591 „

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except that where there are more than two publications in the same cover it will be considered sufficient if the stamps be so arranged that they can readily be examined.

5th. It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends.

8th. It must contain no enclosure.

9th. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged 2d. In case of any other irregularity the publication is dealt with in accordance with the regulations of the book post.

12th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

13th. Unstamped publications, or stamped publications which have been issued more than fifteen days, can be forwarded within the United Kingdom and to most of the colonies under the regulations of the book post.

7. Newspapers sent abroad are liable to the same

* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, if sent to a British Colony, is liable to a postage of 1d. (which must be prepaid by a postage label or in money*), together with an additional postage (as shown in the Table of Colonial and Foreign Postage) when the newspaper has to pass through a foreign country. In the same table will be found the postage of newspapers sent to foreign countries. In all cases of newspapers going abroad the impressed stamp stands for nothing.

Parliamentary Proceedings.

8. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage :—

Weighing not more than 4 oz., ... 1d.
Weighing more than 4 oz., but not exceeding 8 oz., ... 2d.
Weighing more than 8 oz., but not exceeding 12 oz., ... 3d.
Weighing more than 12 oz., but not exceeding 16 oz., ... 4d.

and so on; one penny being charged for every additional 4 oz.

The words Parliamentary Proceedings must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Printed proceedings of the Imperial Parliament and of the Colonial Legislatures may be sent to or from the Colonies at the rates mentioned in the Table of Colonial and Foreign Postage.

Book Post.

9. At the following charges, and on the subjoined conditions, book packets may be sent by the post to any place within the United Kingdom :—

Weighing not more than 4 oz., ... 1d.
Weighing more than 4 oz., and not exceeding 8 oz., ... 2d.
Weighing more than 8 oz., and not exceeding 16 oz., ... 4d.
Weighing more than 1 lb., and not exceeding 1½ lb., ... 6d.

and so on, 2d. being charged for every additional half pound or any less weight.

1st. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

2nd. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination.

3rd. If the postage paid on the packet amount to as much as 4d., it may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum (to the exclusion, however, of written letters, whether sealed or open). And the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

4th. But if the postage paid be less than 4d., the packet must consist exclusively of printed matter, without restriction, however, either as to the number of publications or separate sheets, or as to whether they are bound or unbound. If any other matter be included, the packet will be subject to the penalty mentioned in the 9th Condition.

5th. A book packet, whatever may be the postage paid thereon, must not contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter written in any such packet or in or upon its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter, and may therefore be made when any writing is permitted; that is, when a postage of 4d. at least is paid.

6th. No book packet can be received, if it exceeds two feet in length, width, or depth.

7th. Any packet which shall not be open at the ends or sides, or shall have any written letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" or double letter postage.

8th. If a packet be found to contain any written letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate of 4d.; and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of 1d., it is forwarded, charged with the deficient book-postage, together with an additional rate of 4d.; but any packet which shall bear no postage stamp is charged with the "unpaid" or double-letter postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

10. At the following charges, and on the subjoined conditions (which in most respects are similar to the foregoing), book-packets may be sent by post to the Colonies specified in the table of Colonial and Foreign Postage, commencing at page 16 :—

Weighing not more than 8 oz. ..... 0s. 6d.
Weighing more than 8 oz., but not exceeding 16 oz. ..... 1s. 0d.
Weighing more than 16 oz., but not exceeding 2 lb. ..... 2s. 0d.
Weighing more than 2 lb., but not exceeding 3 lb. ..... 3s. 0d.

and so on; 1s. being charged for every additional pound, or fraction of a pound.

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

To India, Ceylon, Hong Kong, Mauritius, South and Western Australia, New South Wales, Tasmania (Van Diemen's Land), and New Zealand, the charge is as follows:—

Weighing not more than 8 oz..... 0s. 8d.
Weighing more than 8 oz., but not exceeding 16 oz..... 1s. 4d.
Weighing more than 16 oz., but not exceeding 2 lb..... 2s. 8d.
Weighing more than 2 lb., but not exceeding 3 lb..... 4s. 0d.

and so on; 1s. 4d. being charged for every additional 16 oz., or fraction of 16 oz.

The following are the conditions to be observed:—

1st. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

2nd. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination.

3rd. The packet may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum (to the exclusion, however, of letters, whether sealed or open); and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

4th. The packet must not contain any letter, closed or open, or any enclosure sealed or otherwise closed against inspection, nor must there be any letter, or any communication of the nature of a letter, written or printed in any such packet or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

5th. No book-packet can be received, if it exceeds two feet in length, width, or depth.

6th. Any packet which shall not be open at the ends or sides, or shall have any letter, or any communication of the nature of a letter, written or printed in it or upon its cover, will be charged with letter postage.

7th. If a packet be found to contain any letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional book-rate; that is, with the postage chargeable on a book weighing not more than half a pound. The remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

8th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear stamps equal to a single book-rate, it will be forwarded charged with the deficient book-postage, together with an additional book-rate; but any packet which shall not bear postage stamps equal to a single book-rate will be detained and charged with the letter-postage.

9th. No book-packet weighing more than three pounds can be sent to the East Indies or to New South Wales.

10th. The Colonial book-post extends to those Colonies only which are so marked in the Table of Colonial and Foreign Postage.

11th. In no case can a book-packet be sent to the Colonies (except at the letter-rate of postage) through a foreign country.

11. The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which exceeds two feet in length, width, or depth, or which has any letter, or any communication of the nature of a letter, written (or, in the case of a Colonial book-packet, printed) in it or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in London, Dublin, or Edinburgh, as the case may be; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above regulations.

12. To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices* the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

REGISTRATION.

13. By the prepayment of a fee of sixpence† any letter, book, or other packet on which the postage has been prepaid in stamps may be registered. This will make its transmission more secure by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when colonial, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are of course responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Grace think proper, will require him to make good any loss that may be sustained thereby.

14. The postage of registered letters must be prepaid; and if the letter be inland, it must be prepaid in stamps.

15. Every letter to be registered should be presented at the window, and a receipt obtained for it, and must on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" *be* dropped into the letter-box, it will

* Packet Offices are those at which mails are made up for despatch by packets (as distinguished from private ships) to places abroad; such are the offices of London, Liverpool, and Plymouth.

† This fee, in the case of a letter addressed to a place abroad, or posted in London, may be paid either in money or stamps; but in all other cases it must be paid in stamps.

be liable to a registration fee of one shilling, instead of the ordinary fee of sixpence. No Letter Carrier or Rural Messenger is required to take letters from the Public for the purpose of registering them.

16. The latest time for posting registered letters is entered in the Notice exhibited in every Post Office, such time, unless otherwise directed by the Surveyor, being half an hour before the closing of the box for the mail by which it is to be despatched.

17. Parliamentary notices may be forwarded through the post under the following regulations:—

1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such parliamentary notice should also be legibly printed or written on the face of the letter; though this is not imperative.

2nd. These notices must be posted either at the General Post Office, St. Martin's-le-Grand, in London; the General Post Office in Dublin; the General Post Office in Edinburgh: or at the chief office at one or other of the following towns:—

Aberdeen,	Inverness,
Athlone,	Leeds,
Belfast,	Lincoln,
Birmingham,	Liverpool,
Bristol,	Manchester,
Cork,	Newcastle-upon-Tyne,
Exeter,	Norwich,
Glasgow,	Shrewsbury.

3rd. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted on or before the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices which by the same orders may be served later than the 15th, may be posted after the 12th of that month.

4th. The postage chargeable on these notices must be prepaid by stamps; the registration fee of sixpence on each notice being paid in the usual manner.

5th. The notices must be posted at the Post Office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window: and if each list correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

18. The hours for receiving both parliamentary notices and the under-mentioned voting notices are the same as those for the registry of ordinary letters, unless the parliamentary notices be presented at such a time as to interfere with the ordinary duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; provided that, when the notices are to be served on or before the 15th Dec., such arrangement do not delay the posting beyond the 12th.

19. Whoever sends parliamentary notices should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

20. On prepayment of the postage and of a registration fee of twopence, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open and in duplicate, to a Postmaster of an office where money-orders are issued or paid.* On receiving the notice, the Postmaster has to compare it with the duplicate, and if the two agree the latter will be stamped and returned to the bearer.

21. When a poll-book is presented by any returning officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment thereof in writing, stating therein the time when he received it.

22. No registration fee is demanded for poll-books, and the prepayment of the postage is optional, without regard to weight.

POSTAGE STAMPS.

27. Every Postmaster is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices:—

Stamped Labels.

Penny Labels,	1d. each.
Twopenny do.	2d. each.
Fourpenny do.	4d. each.
Sixpenny do.	6d. each.
Shilling do.	1s. each.

Stamped Penny Envelopes.

†12	to be sold for	1s. 1½d.
8	,,	0s. 9d.
6	,,	0s. 6½d.
4	,,	0s. 4½d.
2	,,	0s. 2¼d.
1	,,	0s. 1½d.

28. Every Rural Messenger is authorized and required to sell postage stamps at the same prices at which Postmasters are empowered to sell them.

29. Prepayment of inland letters, &c. must be by stamps,‡ except at the Chief Post Office, London, where prepayment of such letters from 10 a.m. to 5 p.m. is permitted in *money*, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except by soldiers and sailors in Her Majesty's service, British postage stamps, however, are not available for the payment of letters, &c., *coming into the country*.

30. When adhesive stamps are used, they should be examined to see that they firmly adhere, since if they fall off, the letters, &c., will be charged with postage, which, in the case of inland letters and of some foreign letters, is double the prepaid rate. The stamps should be placed on the front of the letter, and upon the right-hand corner of the upper side.

31. Arrangements have been made by which paper and envelopes taken by the public to Somerset House can be impressed with postage stamps.

* The posting of these notices is confined strictly to Post Offices where money-order business can be transacted; consequently, whenever such power is suspended at any office, none of these notices can there be received.

† Every complete dozen, or any larger number, must be charged at the same rate.

‡ Payment in stamps must always be made by affixing outside the letter, &c., before it is posted, a number of stamps equal in value to the amount of postage.

MONEY ORDERS.

32. The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security, than verbal messages, against mistakes. These Forms are sold by Postmasters at the rate of ten for one penny, or five or any smaller number for a half-penny.

33. The commission on a Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5.

34. No order is allowed to contain a fractional part of a penny.

35. With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address; and if the name of either party be tendered at greater length, it must be received and advised accordingly:—

1st. If the particulars be furnished in writing (whether by filling up the blanks in the printed form or wholly in manuscript), it will not be necessary to give the Christian name in full; it will be sufficient if the first letter be given.

2nd. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice,* except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.

3rd. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

36. When application is made for a Money Order payable in London or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed at the Chief Office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List.

37. An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the Metropolitan Office, as directed in the 44th rule.

38. When an order is presented for payment (otherwise than through a Bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant, nor deputed by him. When an order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

39. The holder of a Money Order is always at liberty to direct, by crossing it, that the Order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an Ordinary Money Order is dispensed with.

40. Money Orders do not require a receipt stamp.

41. Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money will be lost.

42. No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim. The public are therefore strictly cautioned,—

1st. To guard against the loss of the Money Order.

2nd. Never to send the Money Order in the same letter with the information required on payment thereof.

3rd. To be careful on applying for a Money Order to state correctly the Christian, as well as the surname, of the person in whose favour it is to be drawn.

4th. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

43. Under no circumstances can payment of an order be demanded on the day of issue; and, as respects orders granted at minor offices, time must be allowed for the advice to pass through the Metropolitan Office.

44. In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars) to the Controller of the Money Order Office of the kingdom where the original order was issued; and by a similar application to the same officer, who (except as regards a temporary power to stop payment) can alone act in such cases, authority can be obtained to transfer the payment of an order from one office to another, or to stop payment, or to correct any error in the name of the remitter or payee, or to repay the money to the remitter. Every such application, however, must contain, in postage stamps, a second commission (namely, threepence for an order not exceeding £2, and sixpence for an order above that sum), though one commission will suffice even when, in the same application, more things than one, relating to the same order, are asked for; as both an alteration in the name of the payee and payment at another office. Unless a sufficient reason be given for an exception, the application must be either from the remitter or payee. Whenever, on complaint being made, it is found that the necessity for an applica-

tion entailing the payment of a fresh commission is attributable to the Post Office, the stamps transmitted in payment of the commission will be returned; and when it can be ascertained where the blame lies, the officer in default will be required to pay the additional commission.

45. A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster should advise the applicant for payment to communicate with the remitter, and request him to apply to the Controller of the Metropolitan Money Order Office of the kingdom in which the order was issued, enclosing in his application the additional commission (in postage stamps) chargeable for the alterations required.

46. No Letter Carrier or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one, but such services are not forbidden.

47. No Money Order business is transacted on the Sunday; neither, in England, Scotland, or Ireland, is any transacted on Christmas Day or Good Friday; nor, in Scotland, on the Sacramental Fast Days; but for the convenience of the labouring classes the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow), except where the Surveyor of the district considers such an arrangement unnecessary.

48. Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh daily, between the hours of 10 a.m. and 4 p.m., except on Saturdays, when the hours of business are from 10 a.m. till 1 p.m. Orders are issued and paid at most provincial offices from 9 in the morning till 6 in the evening, and the time is never less than from 10 till 4. A Postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

49. The agents of the Post Office in Malta and Gibraltar authorized to issue Money Orders on the several Money Order Offices in the United Kingdom, which orders the Postmasters in this country are required to pay; but no orders can be *drawn* upon the above-mentioned places.

MISCELLANEOUS RULES.

50. With the following exceptions, no letter, &c. can be forwarded by the post which is more than two feet in length, breadth, or depth, nor any unpaid packet which weighs more than four ounces, unless three quarters of the postage have been paid. The exceptions are:—

1st. Packets to or from places abroad.

2nd. Packets to or from any of the Government Offices or departments, or Public Officers.

3rd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary proceedings.

51. No information can be given respecting letters which pass through a Post Office* except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

52. Postmasters are not allowed to return any letter, &c. to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon; as every letter, &c. must be delivered to the person to whom it is directed, and to him alone.

53. Late letters, &c.† are received till within five minutes of the despatch of the mails, except in those large towns where the Surveyor may deem an interval of ten minutes necessary, and excepting that no office is to be kept open merely for this purpose after ten o'clock at night.

54. No late letters, &c., are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee.

55. With the subjoined exceptions, every redirected letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the re-direction be not only made by an Officer of the Post Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or un-paid letter re-directed by an Officer of the Post Office to any other postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal district in the United Kingdom, and weighing above half a pound but not more than a pound, an additional postage of fourpence is levied, or, if the book weigh more than one pound but not exceeding two pounds, an additional postage of eightpence; and so on. A registered letter when re-directed is not subject to a greater additional charge than an ordinary letter. Letters which have once been posted addressed to commissioned officers in the army, navy, or ordnance employed on actual service in any of Her Majesty's colonies, or on any foreign station, or who, before receiving the letters may have started on their return home or to another station, may be re-directed to such officers when removed *upon service*, and will be delivered to them for the same postage that would have been chargeable had the letters been delivered at their original address. The same privilege extends to the letters of soldiers and seamen (see page 11), except as regards foreign postage, which must be paid. No such privilege, however, is allowed with regard to letters for a commissioned officer when such officer is in the United Kingdom, and was so when the letters were posted.

* The term "Post Office" applies to all Post Offices, whether Head Office, Sub-Office, or Receiving Office. A "Head Office" is an office subordinate only to a Metropolitan Office. Both Sub-Offices and Receiving Offices are under Head-Offices; but at Receiving Offices letters are *received* only, not delivered.

† The term "Letters, &c.," is meant to include everything sent by the post; whether letters, newspapers, parliamentary proceedings, books, or aught else. "Late letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

56. Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of letters, &c.

57. During the time the office is open on Sunday (viz. from 8 to 9) the public are allowed to prepay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which, on that day, are wholly suspended.

58. At no office is there more than one delivery on the Sunday, Christmas Day, or Good Friday, nor, in Scotland, on the Sacramental Fast Days.

59. No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at the Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

60. Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

61. Postmasters are instructed not to receive any letter, &c. which there is good reason to believe contains anything likely to injure the contents of the mail bag or the person of any officer of the Post Office. If such a letter, &c. be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any letter, &c. of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:

A glass bottle, or glass in any form: razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables, bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.

65. By the Act 1st Victoria, cap. 36, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster General incurs a Penalty of £5 for every letter, and £100 for every week the practice is continued. The Sender also incurs a Penalty of £5 for every letter, with full costs of Suit.

66. The following are the Exceptions granted by the Act 1st Victoria, cap. 34, from the exclusive Privilege of the Post Office, in the Conveyance of Letters:—

1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed.

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings or returns thereof, issuing out of a Court of Justice:

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat):

4th. Letters of merchants, owners of vessels of merchandize, or the cargo or loading therein, sent by such vessels of merchandize, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:

5th. Letters concerning goods or merchandize sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters.

6th. No person is authorized to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

67. The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same:

1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches:

2nd. Owners, masters or commanders of ships, vessels, steam boats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within Her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:

3rd. Passengers or other persons on board any such ships, vessels, steam boat, passage or packet boat:

4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other Her Majesty's dominions.

68. Local Postal Guides, price one penny, containing information special to the locality, are issued in England at the Post Offices at Birmingham, Bristol, Leeds, Liverpool, Manchester, and Sheffield; in Ireland, at Dublin, Cork, and Belfast; and, in Scotland, at Edinburgh and Glasgow.

TIME OF POSTING.—When the time for making up a Mail is marked "Afternoon," the latest time (in Glasgow) for posting Letters by it for Abroad, is 3.15 P.M., at the Chief Office. When marked "Evening," 7.20 P.M.

Optional or Compulsory Prepayment.

70. * The asterisk prefixed to a division (as that of Letters or Newspapers) indicates that in such case

Prepayment is compulsory. In other cases Prepayment is not compulsory unless the Letter be registered. When a Letter or Newspaper, addressed to go by a route that requires Prepayment, is posted unpaid, and there is some other route where Prepayment is not required, it is sent by that route; but if there be none, it is sent to the Dead Letter Office, to be returned to the writer.

Distance to which the Postage carries the Letter, &c.

71. D. The letter D prefixed to any division (as that of Letters or Newspapers) shows that the postage there entered carries the Letter, &c., from the place where it is posted in the United Kingdom to its place of destination. In all other cases the postage carries it only part of the way. The word "Free," as applied in certain cases to Newspapers, &c., simply means that no charge is made upon them *in* this Country.

Letters for Non-commissioned Officers, Soldiers, and Seamen in Her Majesty's Service.

72. S. Subject to the subjoined regulations non-commissioned officers, private soldiers, or seamen, whether serving on board Her Majesty's Ships or Transports, on sea or land (in Foreign Parts), as also enrolled pensioners in Canada, can send and receive letters by direct Packet, Vessel of War, or Transport for a postage of 1d.

1st. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, or of the East India Company, and must not be either a commissioned or warrant officer, midshipman, or master's mate, the privilege not extending to these officers.

2nd. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship the gratuity of one penny or twopence, as the case may be, to the captain must also be prepaid. If posted abroad, prepayment is not compulsory, but if the letter be sent unpaid, it is on delivery charged twopence, together with any foreign postage or gratuity to a sea captain that may be due.

3rd. The Letter must not weigh more than half an ounce.

4th. It must relate entirely to the private concerns of the soldier or seaman.

5th. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

SEAMEN.

From A.B., Seaman, H.M.S. ———

(*Here the direction of the Letter to be inserted*)

C.D., Captain (*or other Commanding Officer*),

H.M.S. ———

Seaman H.M.S. ———

(*Here the direction of the Letter to be finished.*)

SOLDIERS.

From *A.B.*, Sergeant, &c. —— Regt. ———

(*Here the direction of the Letter to be inserted*)

C.D., Colonel (*or other Commanding Officer*),

Regt. ———

To *A.B.*

(*Here the direction to be finished.*)

73. If either of the foregoing regulations be violated, the letter is charged with the full Letter Rate.

Letters weighing more than 2 oz.

74. The Postage of a Letter weighing any number of ounces, with any fraction of an ounce, may be reckoned by first seeing what it would be if the Letter weighed only one ounce, with the same fraction; and then adding the charge for the additional ounces. Thus, to find the postage on a Letter to France weighing between 3 oz. and $3\frac{1}{4}$ oz., take 1s. 8d. (the charge for a Letter between 1 oz. and $1\frac{1}{4}$ oz.), and add thereto 2s. 8d., the charge for the additional two ounces; giving a total of 4s. 4d. For a Letter between $3\frac{1}{2}$ oz. and $3\frac{3}{4}$ oz., take 2s. 4d. (the charge for a Letter between $1\frac{1}{2}$ oz. and $1\frac{3}{4}$ oz.), and add thereto 2s. 8d., the charge for the two additional ounces, giving a total of 5s. Whenever it appears by the Table that the postage to a British Colony of a Letter not exceeding $\frac{1}{2}$ oz. in weight is 6d., the postage of a Letter of any greater weight may be found by multiplying the prepaid Inland rate by six. Thus, the postage of a Letter between 4 oz. and 5 oz. in weight to Jamaica is 5s., being six times 10d., the prepaid Inland rate of a Letter of that weight.

Routes.

75. When the route by which a Letter, &c. is to go is not marked on it, it will, under ordinary circumstances, be sent by the route immediately following the name of the place. Thus, a Letter or Newspaper directed to India, with no route marked on it, will be sent via Marseilles, and charged the higher postage attendant thereon.

76. For information respecting Foreign rate of postage, as distinguished from the combined British and Foreign rate (which will be found in the above Table), application should be made to the Secretary of the Post Office. No Foreign postage is chargeable on letters to or from India via Southampton.

Exceptional Rates of Postage, &c.

77. *Rates of Postage (which must be paid in advance) chargeable upon Newspapers and other Printed Papers to France, Algeria, or the French Offices in Turkey, Syria, and Egypt.*

For a Packet of Registered Newspapers.

	s.	d.
Not exceeding 4 oz.	0	1
Above 4 oz. and not exceeding 8 oz. .	0	2
Above 8 oz. and not exceeding 16 oz. .	0	4
Above 16 oz and not exceeding 24 oz.	0	6
Above 24 oz. and not exceeding 32 oz.	0	8

And so on, 2d. additional for every subsequent 8 oz. or fraction of 8 oz.

For a Packet of other Printed Papers.

Not exceeding 4 oz.	0	3
Above 4 oz. and not exceeding 8 oz. .	0	6
Above 8 oz. and not exceeding 16 oz. .	1	0
Above 16 oz. and not exceeding 24 oz.	1	6
Above 24 oz. and not exceeding 32 oz.	2	0

And so on, 6d. additional for every subsequent 8 oz. or fraction of 8 oz.

The term "printed papers" includes Parliamentary Proceedings, Books of every kind, whether printed, engraved, or lithographed, Sheets of Music, Prints, and printed or engraved Maps, with any binding, mounting or covering (whether loose or attached), belonging to any Book, &c., and any cases or rollers of prints, or of printed or engraved Maps, together with Bookmarkers, Pencils, Pens, or other articles usually appertaining to any such Book, &c., or necessary for its safe transmission. But no such Book, &c., must contain any writing or manuscript mark of any sort, and no packet must exceed 18 inches in length, width, or depth.

78. To all parts of France, and to some countries to which letters, &c., are sent through France, the above rates carry the packet to destination, no charge being there made on delivery. At the same rates packets of Registered Newspapers and other printed papers may be sent to those countries not mentioned in paragraph 77, the correspondence for which is forwarded as a rule by way of France, as well as to other countries *via* France, *when so addressed*. The packets so forwarded, which do not consist of Registered Newspapers, may contain Gazettes, Periodical Works, stitched or bound Books, Pamphlets, Sheets of Music, Catalogues, Prospectuses, announcements and notices of various kinds, and in fact any kind of printed paper, whether the same be lithographed, engraved, or in type.

79. Periodicals not of daily publication, issued in the shape of pamphlets, may be sent to Bremen, Hamburg, Prussia, and the United States, as well as to Belgium and Holland (to which latter countries Parliamentary Proceedings may also be sent), at the following rates: not exceeding 2 oz., 1d.; 2 oz. and not exceeding 3 oz., 6d; 3 oz. and not exceeding 4 oz., 8d.; with an addition of 2d. for every additional ounce up to 16 ounces, above which weight the privilege does not extend; and at the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States. The periodicals or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover,) and the postage must be prepaid.

80. Newspapers *from* Belgium are charged ½d. each; and Newspapers from Canada (when they pass through the United States) 1d. each.

81. The Foreign rates of postage on Newspapers to parts of Turkey, &c., via Belgium, specified in the Table, *as exceptional rates*, is as follows:—Not exceeding ½ oz., 1½d.; ½ oz. and not exceeding 1 oz., 3d.; 1 oz. and not exceeding 1½ oz., 4½d.; 1½ oz., and not exceeding 2 oz, 6d.; 2 oz. and not exceeding 2½ oz., 7½d.; and so on, 1½d. being charged for every succeeding ½ oz. or fraction of ½ oz. Besides this Foreign postage there is a British post of 1d. for each Newspaper. Both rates must be prepaid.

82. B. The Privilege of the Book Post to and from India and New South Wales is limited to Packages not exceeding 3 pounds in weight. Any package weighing more than 3 pounds is liable to the Letter Rate of Postage.

83. G.U. According to the regulations of the German Customs Union, no Letter exceeding 50 grammes (a little more than 1½ oz.) in weight, and containing any other enclosure than paper, can be allowed to circulate by the post. Any Letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other enclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as *freight*.

Foreign Newspapers.

84. With the following exceptions, Foreign Newspapers must be printed in the language of the country from which they are sent:—"Argentine News," published at Rio de Janeiro; "The Bruxelles Herald," published at Brussels; and all Newspapers and other printed papers coming from France or through France.

Registration of Letters.

85. By the prepayment of the usual British registration fee of 6d., Letters can be registered between this country and the British West Indies, United States, Malta, Gibraltar, and Ceylon; and by the prepayment of the British registration fee and the additional prepayment of a Foreign registration fee, Letters can be registered between this country and France, *and those countries through France to which the postage can be paid to destination*, to Prussia and to countries through Prussia. Moreover, by the prepayment of the British registration fees Letters can be registered between this country and Belgium and Holland, and countries through Belgium and Holland. Again, by the prepayment of the British registration fee, a Letter addressed to any other place can be registered to the port of despatch, and entered separately in the Letter Bill; it being in these cases left to the postal authorities of the Colony or Foreign Country to carry on the registration or not, as they may choose. The British and Foreign registration fee on a Letter to France, or to a country through France, is exactly as much again as the Postage, *both British and Foreign*, whatever that may amount to. Thus, the joint British and Foreign postage on a Letter to France weighing not more than ¼ oz. being 4d., the Registration Fee on such a Letter would also be 4d.; and if the postage amount to 8d., the fee is 8d. also.

86. The Foreign Registration Fee on a Letter to or through Prussia (except to Russia) is 3d., without regard to weight; making a total fee, British and Prussian, of 9d., in addition to the ordinary postage. The fee on a registered Letter to Russia, via Prussia, is greater by a sum equal to the Russian postage, which, on a letter not exceeding ½ oz., is 3½d. The whole charge for a registered Letter to Russia, via Prussia, or, as marked in the Table, via Belgium (which latter country the Letter first passes through), is entered in the Table.

Letters by Private Ships.

87. To most of the places entered in this Table, Letters may, if so marked, be sent by Private Ship, even when there is no entry to that effect in the Table. Letters may be sent by Private Ship, also, to many other places; the Table of Colonial and

Foreign Postage being chiefly limited to those with which there is postal communication by regular Packets. To insure any letter, &c., being sent by Private Ship, the words "By Private Ship," or "By Ship," should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a Letter by a Private Ship is eight times the Inland prepaid rate; consequently, on a Letter not exceeding ½ oz. it is 8d., which postage must be prepaid.—Newspapers by Private Ships *(except those for Bremen, Hamburg, Lubeck, Oldenburgh, and Prussia, which are sent free,)* are charged 1d. each.

Warm Climates.

88. The practice of Sealing Letters passing to and from the *East* and *West Indies*, and other warm Climates, with Wax (except such as is specially prepared) is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax and Adhesion of the Letters to each other.

89. In the case of Mails received from *India*, considerable delay is occasioned; and, notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax in securing their Letters sent to *India* or other warm Climates, and also to advise their Correspondents in those Countries to pursue the same course.

Prepayment.

90. Letters addressed to places abroad may be prepaid in this country either in money or stamps at the option of the sender, but such payment must either be wholly in stamps or wholly in money. Book-packets must always be prepaid, *and with stamps*. Newspapers for places abroad when subject to postage must always be prepaid, by means, however, of stamps *or* money at the option of the sender. The only admitted evidence of the prepayment of a letter, &c., *inwards*, is the mark agreed upon with the particular foreign country or colony; except that naval officers and seamen serving abroad are allowed to prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is *optional*, any outward Letter (that is, a letter posted within the United Kingdom, and addressed to some place out of it) posted with an insufficient number of stamps is charged with the deficient postage in addition; unless the letter have to go to Belgium, or to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is *compulsory*, a letter or aught else posted with an insufficient number of stamps is sent (by the first post) to the Returned Letter Branch of the Circulation Office. Unpaid letters addressed to or received from places in Turkey, Egypt, and Syria, at which France maintains Post Offices, will be charged a rate of 9d. per ¼ oz. upon delivery, instead of 6d., the prepaid rate.

SUGGESTIONS TO THE PUBLIC, ETC.

92. Facility would be given to the Post Office in the discharge of its daily duties, and consequently benefit to the public, by a more careful and general attention to the following points:—

1st. To post all letters and newspapers as early as practicable.

2nd. When several letters are sent by the same person for registration they should be accompanied with a list in duplicate of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.

3rd. To make the address legible* and complete, giving the name of the post town, and if there be more than one town in the kingdom of that name (but not otherwise) adding that of the county. Letters posted in one part of the United Kingdom and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad the name of the *country* as well as the town or city should be given. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries: For example:—a letter intended for London in Western Canada, North America, but simply addressed "London, C. W.," would be forwarded to the West Central District of the Metropolis in England, and thus be delayed.

4th. Every letter, newspaper, or other packet sent by post should be securely folded and sealed.† It should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. Owing to neglect of these precautions many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

5th. To prevent Newspapers from slipping out of their covers care should be taken to fasten the covers firmly. When, for additional security, the address is written on the newspaper itself, such address must, in case of re-transmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be *obliterated*,

* As an instance of miscarriage owing to the want of legibility, it may be mentioned that badly directed letters intended for *Belgravia* have not unfrequently been sent to *Belgrade*.

† The most secure mode of sealing, in the opinion of the practical officers of the Department, is first to wafer the letter and then to seal it with wax.

as the rules forbid writing or marks of any kind in addition to the true address.

6th. When money or any other article of value is to be transmitted through the post, it should be sent either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.

7th. To provide a letter-box, except where the outer door is kept open.

8th. In case of removal, to leave at the residence vacated the particulars of the new address.

9th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible in regard to all the facts of the case, and to enclose whatever documents may throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, is supplied by those who alone are able to do so.

10th. Every letter to contain the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

93. Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-one thousand servants of the Post Office, yet the instances are not few in which it has been shown to the satisfaction even of the complainant that the fault attributed at first sight to the Post Office rested really in other quarters.

94. The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal, addressed to persons abroad. An investigation showed that the abstraction was made by the publisher's clerk; his object apparently being to appropriate the stamps required to defray the foreign postage. In another case a general complaint having arisen as to the loss of newspapers sent to the Chief Office in St. Martin's-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with newspapers by the private messengers employed to convey them to the post. Again, very recently a man was detected in robbing a newsvender's cart by volunteering on its arrival at the entrance of this Office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.

95. Depredation so impudent and systematic is not likely, whoever the perpetrator may be, to remain long undiscovered; but isolated cases of theft by private hands are often brought to light, although necessarily very difficult of proof on the part of the Post Office, upon which no doubt the blame for a time rests; and it is greatly to be desired that those who have suffered loss should in the first instance, and whilst the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers in question, and communicate that information to this Department. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Post Office or not.

96. The Post Office is a department which admits of constant improvement and expansion; and the public by sending to the Post Office clear and correct information respecting faulty arrangements may greatly aid in the accomplishment of these objects. It is not, however, always borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously, and with much previous consideration.

97. The arrangements of the service, even in districts widely separated, are so directly dependent upon each other, and economy of time (one of the first objects in all postal organization) requires that they should be so nicely adjusted, that no alteration can safely be made without a close examination of all its consequences, and the utmost completeness of preparation; for as on the one hand experience proves that almost every improvement made shows the way to further amendment, so, on the other, it will be found that an ill-considered change, though it may give a partial advantage in one quarter, will almost invariably lead to dislocation and confusion in others.

98. This, of course, involves a reference to every district or community which may be affected, often distant from the metropolis; and entails the necessity of reports from various quarters, which must be considered, compared, and in many instances tested by experiment before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into, tenders invited, new contracts made, and old contracts, requiring notice of termination, got rid of, before the decision can take effect.

99. The proper execution of a great portion of these duties not only requires high ability, diligence, and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognized in this Office, that investigation has been set on foot, and measures of improvement have been taken before any public demand has arisen: such demand even having been suggested by these very proceedings.

100. It is often assumed that a Mail conveyance, passing by or through a place, however small, ought as a matter of course to deposit the letters directed thereto; the practice being that until the mail arrives at the head post office of the district the letters in question are not separated from the other letters of the district. A slight consideration of the nature and objects of the Postal Service will show that such separation cannot be effected in any other way, unless, indeed, the Mail conveyance, even supposing it to be but a mail cart, were converted into a travelling post office, and furnished with clerks of unlimited local knowledge (which is plainly impossible), or unless every town and village in the

kingdom having any correspondence with the place in question were to make up a bag for that place; in which case its Mail would contain nearly as many bags as letters.

101. It happens from time to time that, owing to the stream of postal communication having been diverted from the old mail road to a line of railway, or from other causes of like nature, it becomes desirable to reduce the post office of a town from the condition of a principal office to that of a sub-office. This step not unfrequently gives rise to complaints; the inhabitants being under the impression that they will not in future be so well served. This is a misconception. The change is not made when it will subject the correspondence to delay; nor does it cause any withdrawal of accommodation in respect to Money Orders. It is, in fact, simply a departmental arrangement, which consists in carrying on the sorting of the letters for the new sub-office at some intermediate office, instead of sending them in direct bags.

102. A frequent error is to assume that the Postmaster General has some control over the delivery, charge, and other postal arrangements in all the Colonies, and even in foreign countries; whereas in most of the former, and in all the latter, the British Post Office is as powerless as the Foreign or Colonial Post Offices are here.*

103. Another misconception, which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers to remit penalties or overcharges in special circumstances. Cases will undoubtedly occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositories of such a power, affecting, as it would to a great degree, the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster General; and in the few instances in which these rules press hardly, appeal must be made to the General Office. It must be added, that in many instances even such appeal is necessarily fruitless, the Postmaster General being bound to a particular course by positive law.

104. In regard to the expense of railway conveyance, the public naturally supposes as such conveyance is the cheapest for ordinary purposes, and as the charges made for the carriage of the Mails are subject to arbitration, that it must be the cheapest for postal purposes also, and, indeed, so cheap as to warrant the free use of the railways either as substitutes for other conveyance or for the multiplication of Mails. The fact, however, is very different. Except in certain instances where companies have entered into arrangements securing to the Post Office the use of their trains on moderate, though still highly remunerative terms, railway conveyance, with all its acknowledged advantages, has proved much more expensive than that which it has superseded.

105. In truth, under any modification of the law that could be made without injustice to the railway companies, the especial establishment of trains at hours unsuited to ordinary traffic, a measure often pressed upon the Postmaster General, must remain a source of very heavy expense, such as can be justified only by commensurate advantage to the public.

SHERIFF SMALL DEBT COURTS,

For the recovery of Debts not exceeding £12, sits every Monday, at 11, and Thursday at 10 o'clock forenoon for Glasgow, and on Tuesdays and Fridays for Lanark, Hamilton, and Airdrie, at 11 o'clock forenoon, and have jurisdiction over the whole of Lanarkshire. The Defenders are cited before this Court on an inducie of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8. 6s. 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of aliment.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorize; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

SOCIETY FOR THE SONS OF MINISTERS OF THE CHURCH OF SCOTLAND.

Was instituted 1790; incorporated by a Charter from the City of Glasgow, 1791; their annual meeting is held on the last Thursday of March. President—John Campbell, Counsellor-at-Law, Chief Registrar of the Court of Bankruptcy in England. Council—(Here stated according to *official* seniority) —Very Rev. the Principal of Glasgow College; Rev. Dr. G. Smith, Edinburgh; G. Muir, merchant, Glasgow; Rev. N. Macleod, D.D., St. Columbus, Glasgow; J. Smith, West India Merchant, Glasgow; J. Inglis, Dean of the Faculty of Advocates; the Rev. Dr. Hill, Glasgow College; A. Glen, merchant, Glasgow; A. W. Auld, merchant. Secretary—A. Paterson; Treasurer, W. Auld. The stated meetings are on the last Thursdays of July and November, and on the Thursdays before the annual meeting. They grant no permanent pensions. Applications for pecuniary aid must be made every year, and lodged with their secretary before the 1st of March. The following facts must be distinctly at-

tested by respectable persons, to whom they are known:—That the applicants are children of a minister of the Church of Scotland, whose fathers are dead. 2. The age, progress in education, destination, prospects, or employment of each child in the family, old or young. 3. How they have hitherto been supported, and the means of their present subsistence of whatever kind, whether certain or precarious. Applicants to appoint some person in town to call on the secretary, 45 West George Street, on the first Tuesday of April, for answers to their petitions. The society are also trustees on the late Miss Janet Paisley's Trust Fund for the benefit of the daughters of deceased clergymen of the Church of Scotland.

GLASGOW RELIGIOUS FRIENDLY.

This society was instituted 1st October, 1827, on the principles laid down in the Highland Society's Report, and the Reports of the House of Commons, with an addition of 10 per cent. upon their tables; but having found this insufficient to sustain the society, it was agreed on 1st July, 1846, that a reduction of the sick allowance should be made after nine months' continued ailment, with a further increase of 10 per cent. upon contribution tables. It has two departments, viz., 1st, The sick allowance, with a stated superannuation allowance, from the age of 65 to the end of life. 2d, Allowance at death; to any of which the members pay in proportion to their ages and the benefits required; and females are admissable to the latter department, the two being kept perfectly distinct.

W. Angus, 113 Rottenrow St., President; David Sutherland, Morrison's court, 108 Argyle St., Treasurer; William Sutherland, 5 M'Aslan St., Secretary.

Meet in John Street United Presbyterian Church Session-house, on the first Monday in Jan., March, May, July, Sept., and Nov., at eight o'clock, p.m., to receive contributions and enter new members.

GENERAL REGULATIONS.

1. The board is, in all cases, payable quarterly, and in advance.

2. The regular quarterly terms are—1st January, 1st April, 1st July, and 1st October. In regard to patients at and above the rate of 15s. per week, no part of the first quarter's board shall be returned, except in the event of the patient dying before the expiry of that period, in which case it shall be in the power of the weekly committee to allow the return of such proportion of the board as, under all the circumstances, they shall consider reasonable.

3. Patients have no claim for remuneration for their labour.

4. Every patient must be provided with proper apparel. An accurate list of every article brought with the patient must, on admission, be delivered to the steward, or principal attendant, to the superintendent of the ladies, or the matron, according to the house in which the patient is placed, and the name must be fully marked on each article. If any necessary part of dress should not be duly supplied, after eight days' intimation has been given that it is wanted, it will be furnished by the house, and the cost of it charged against the patient.

On applying to the physician, the patient will be carefully and expeditiously conveyed to the asylum, the necessary expenses being paid to the steward by the applicant.

Patients in the west house may be visited every

lawful day between 10 and 12 o'clock; those in the east house, who are not paupers, on Mondays, between the same hours; and patients who are paupers, on Saturdays, also from 10 till 12 o'clock. Only those who are duly authorized can be admitted to visit patients.

The object of this institution is to afford assistance to natives, and widows and families of natives, of the city of Glasgow, who, from reverses of fortune, or otherwise, have been reduced to necessitous circumstances; though not such casual or trivial relief as is properly obtained from the funds destined by law for the support of the poor, but rather such more ample and efficient assistance as may tend to secure comparative ease and independence to the parties on whom it is bestowed. It is composed of parties born within the Royalty, or Parliamentary limits of the Burgh, though donations are received and invited from those who, though not natives, have been identified, by long residence or commercial connections, with the interests and prosperity of the city, and who, though not members, are enrolled in a separate class, titled donors. Legacies and bequests will also be received and are invited from the opulent and generous, either at home or abroad, who approve of its object. A payment of £5. 5s., either in one sum at entry, or by five successive yearly instalments of £1. 1s., constitutes membership. Members and widows and families of members, are entitled to a preference in the distribution of the funds.

PERTHSHIRE CHARITABLE.

Instituted 22d. dec., 1835.

The principal object of this Society, the qualification for membership of which consists of a small sum of entry-money, is to afford relief to persons in indigent circumstances, natives or widows of natives of Perthshire, and their children resident in Glasgow and the neighbourhood; or to natives of the county passing through the city unexpectedly falling into distress.

STIRLING'S PUBLIC LIBRARY,

48 Miller Street.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esqrs.—The number of volumes in the Library is now about 13,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

Life subscription, £5 5s. Annual subscription, 15s. the first year, and 10s. 6d. yearly afterwards.

BRITANNIA

LIFE ASSURANCE, REVERSIONARY INTEREST, AND ENDOWMENT COMPANY,

No. 1 PRINCES STREET, BANK, LONDON;

Nos. 20 Buchanan Street and 126 Renfrew Street, Glasgow.

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

THE Rates of Premiums are on *the lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.*

This Institution is empowered *under special Act of Parliament*, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, *and to present greater facilities and accommodation than can be obtained in any similar Establishment.* Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other Office, *and the amount of future payment optional with the Assurer.*

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

Age of the Assured in every case admitted in the Policy.

All claims payable in Three Months after proof of death, while other Offices take six Months to consider this momentous question.

Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.

No charge made for Policies or Admission Fees.

Policies revived without fine within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE *demanded by other Offices.*

Premiums may be paid Half-Yearly or Quarterly, and payments may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance Daily at two o'Clock.

Thirty Days allowed for Renewal of Policies.

Ladies and others, to whom it may be inconvenient to attend at the Office, visited by one of the Medical Officers.

Assurances perfected on the same Day they are proposed.

EXTRACT FROM No. 1.

Table of Equal Rates of Premium, which may be paid to this Company in any way most suited to the convenience of parties insuring:—

Age of the Assured.	Annual Premium required by old Offices sharing profits for Policy of £100.	The ordinary rate of the old Offices not sharing profits.	*Reduced Premium of the Britannia Company.*	Saving per Cent. by insuring in the Britannia Company, equal to an *immediate* Bonus of 25 to 30 per Cent.

35	2 19 10	2 16 1	2 6 9	0 13 1
40	3 7 11	3 6 0	2 15 1	0 14 0

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE one-third more principal sum than can be secured for the same Premium in Offices sharing Profits *to be*

realised, and in which it should *be borne in mind, that should the life drop prematurely*, no Bonus would have accrued; *consequently, the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.*

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. *These advantages may be observed in the following Scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages:—*

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the *same* Premium.	Certain and *immediate* Bonus secured in the Britannia Company on a Policy of £1000.

*** This table, as will be obvious from the following illustrations, presents New and Important features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally or by letter, to the Company's Agent as under.)

By this plan of Insurance the public are vastly convenienced, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment *for the first five years* than in any other Office, and *the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.*

If the Life assured drops within the first period of five years, the sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his Premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance *their* Premiums AFTER THE FIRST FIVE YEARS (*when all accommodation has ceased*), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum *assured after the first five years*, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1,000, *the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—*

If the Insurer dies after the first period of five years, without increasing his premium, it will be reduced *one-eighth* to.....£875, principal sum.
If he shall die after the second period of five years, without increasing his premium, it will be reduced *one-fourth* to.....£750, ditto.
If he shall die after the third period of five years, without increasing his premium, it will be reduced *three-eighths* to.....£625, ditto.
And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to.....£500, ditto.
After this period, no further reduction can be made on the amount assured.

*** This Company assures the Lives of *Officers* and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

☞ *The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords), renders it an imperative duty on the undersigned thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past years, the number of Policies issued have not been exceeded by any Life Office in the Kingdom.*

*** *Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to Parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.*

The uniform promptitude and liberality observed in the *adjustment of all claims* on this Company, the *extreme attention* and expedition in effecting Insurances, guided by *equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.*

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

FOR FIRE AND LIFE ASSURANCE AT HOME AND ABROAD.

THE most ample security is afforded by the large Paid-up Capital of the Corporation, the amount of the Accumulated Funds, and by the income of the Company, which now, from Premiums alone, exceeds £80,000 per annum.

FIRE INSURANCES

Effected at reduced rates.—Claims promptly and liberally settled.

LIFE ASSURANCES

Granted in a variety of ways, so as to afford to the Assured the greatest possible benefit from their contributions.

No charge for Policy Stamp.

Medical Referees paid in all cases.

No Admission-Fee nor Entry-Money.

Foreign residence allowed in all parts of the world distant more than 33 degrees from the Equator without extra charge—Seafaring persons, or persons engaged in Gold-digging or other hazardous occupations, excepted.

Liberal Surrender values paid for Policies, *or Free Policies granted for amounts proportionate to the Premiums already paid.*

THE PARTICIPATION SCHEME

Offers peculiar advantages to the Assured, the Whole Profits being divisible among the Policy-holders, while the expenses, for management and guarantee against all risk of loss, are restricted to *ten per cent.* upon the premiums paid, and there is no other charge whatever.

The following Rates compare favourably with those of other Companies.

No Charge for Policy Stamps or Medical Fees.

THE Rates of Premium are those adopted by the principal Life Offices; the Rate without Bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling reduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to this advantage which is now offered to the Policy-holders in this Office, an annual addition or Bonus is made to each Policy in anticipation of the Quinquennial Division of Profits.

The following Extract from the List of Claims *paid by the* "Provident," *is published with the sanction of the parties interested in the Policies, some of whom have accompanied their acknowledgment of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication:—*

SPECIAL NOTICE—THIRD DIVISION OF PROFITS.

THE unusual success which has attended the cautious yet energetic operations of this Company, has enabled the Directors to add Reversionary Bonuses to Policies on the participating class, averaging nearly 2 per cent. per annum on the sums insured, or from 30 to 100 per cent. on the Premiums paid.

Parties insuring with this Company do not incur the risk of Copartnership, as is the case in Mutual Offices.

Loans on Personal Security, for limited periods, are granted in connection with Policies effected for the whole term of life.

ANNUAL INCOME, UPWARDS OF £128,000.

The Funds or Property of the Company, as at 31st December, 1855, amounted to £566,124. 2s. 6d., invested in Government and other approved Securities.

Assurers for Life, and on the regular scale, may leave half the annual premium for the first five years unpaid, at interest, to be deducted eventually from the policy, or paid off at convenience, whilst the Company have no claim for the arrears in the event of an Assurer wishing to discontinue his policy; thus affording to parties desirous of effecting SHORT TERM POLICIES, the advantage of having a Life Insurance at a scarcely increased outlay. This mode of payment affords the greatest facility and accommodation.

No charge made for Policy Stamps or Entry-Money.

LIFE DEPARTMENT.

THE Public are reminded of the advantages which this Company offers to Assurers, some of which are subjoined:—

FIRST, Undoubted Security from a large accumulated fund from Premiums, besides the Subscribed Capital.

SECOND, The Premiums under the Non-Participating Table enable a party aged 30 to open a Policy for £1,244 9s. 9d. payable at death, for the same premium that the Mutual Societies insure £1000, thus giving an immediate Bonus of £244 9s. 9d.

THIRD, The Participating Premiums give the Assured a right to participate in the Profits to the extent of about 84 per cent.

FOURTH, No Charge is made for the Policy Stamps.

FIFTH, Parties insuring with this Company can deduct the Annual Premiums on their own and their Wives' Lives, from the Assessment made upon them for the Income Tax.

SIXTH, No extra Premium is charged for residence in Australia, Van Dieman's Land, Cape of Good Hope, or America, north of 38 degrees North Latitude.

SEVENTH, Parties, on application in terms of printed Forms to be had at the Office, may have their Policies declared indisputable after the lapse of five years from their date.

EIGHTH, Liberty granted to the Assured, after five years from the date of their Policies, on application in terms of the above, to reside beyond the limits of Europe without extra charge.

NINTH, No Entry-Money.

EXTRACT FROM NON-PARTICIPATING TABLE:—

LIFE DEPARTMENT.

THE Directors of the NORTH OF ENGLAND INSURANCE COMPANY beg to call the special attention of parties about to effect Polices of Life Assurance to the following advantages offered by this Company:—

1. *Annual Bonuses.*—Bonuses are declared annually in April. The Bonuses already declared vary from one to twelve per cent. on the sums assured, and exceed, in some cases, 62 per cent. on the Premiums. *All Polices issued previous to 31st December will share in the whole year's profits next April.*

2. Profits allocated may be applied in augmentation of the sum payable at Death, or in reduction of the future Premiums, or may be paid to the assured by an equivalent in present cash.

3. *Moderate Rates of Premium.*—The same Premium required by the older Offices for the Assurance of £1000 at age 25, will insure in this Office £1156 with Profits, or £1315 without such right of participation.

4. Polices purchased by the Company, and loans granted thereon, according to their acquired values.

5. Claims are payable three months after proof of death. When the sum assured is under £300, the sum is payable one month after such proof.

FIRE DEPARTMENT.

Insurances are granted against Loss by Fire at the lowest Rates commensurate with the nature and position of the property insured.

NEW ADAPTATION OF THE BONUS SYSTEM.
"SEVEN YEARS' HALF CREDIT ASSURANCE."

BY the following new and peculiarly advantageous plan of Assurance, based upon the system of an ANNUAL DIVISION OF PROFITS, first adopted by the CITY OF GLASGOW LIFE ASSURANCE COMPANY, the assured are allowed Credit for Seven Years, for one-half of the Premium exigible at entry, and at the end of the Seven Years are enabled to keep up the Policy at a *very moderate* and *annually decreasing* rate of Premium, whilst *the sum in the Policy on the expiry of the term of credit is payable at death, free of all debt or claim upon it by the Company.*

THE melancholy Shipwrecks (attended with so fearful loss of life) which have occurred even in the last twelve months, prove most emphatically the value of the system of Assurance presented by this Company. By payment of a Premium so small that all classes may avail themselves of the advantages offered, the Passengers by Sea, as well as the Mariner, may secure a certain provision for their families, should they perish through the dangers of the deep; and should they meet with an accident not of a fatal nature, this Company is bound by their Policies to allow

A LIBERAL COMPENSATION FOR SUCH INJURY,

in proportion to the amount insured; but in no case exceeding one-fourth of the amount payable in case of death.

RATES OF PREMIUM,

WITH COMPENSATION FOR NON-FATAL INJURY.

Passengers to Australia, &c., Premium for the Voyage TEN SHILLINGS per £100.
Captains, Mates, &c., Premium per Annum TWENTY SHILLINGS per £100.

Baggage and Effects are also insured at moderate rates, according to the risk of the Voyage.

Full particulars may be obtained, and Insurances immediately effected, through the various Agents in the Seaports; at the Chief Offices, 113 Fenchurch Street, London; and at the Branch Offices in Liverpool and Glasgow.

THIS Office having been established Forty-Eight years, more than sufficient time has elapsed to test the soundness of the principles on which it has been conducted. During that period, its prosperity and the magnitude of its operations has been constantly increasing.

IN THE LIFE DEPARTMENT

The Accumulated Premiums are over £1,600,000. And the Annual Income exceeds £184,000.

BONUSES have been declared on Policies to an amount GREATER THAN THE SUM ORIGINALLY ASSURED.

PREMIUMS HAVE BEEN EXTINGUISHED, where the parties assured have applied the Bonus in reduction of the Annual Premium.

At the last Valuation up to Christmas, 1854, there existed a SURPLUS OF £268,691—the whole of which belonged to the Policy-holders.

The next Valuation will be made up to Christmas, 1859. *Policies on the Participating Scale*, in Great Britain or Ireland *respectively*, which may be effected before that date, will, if the parties be then alive, participate in the surplus in proportion to the time they may have been in force.

The sum of £3,130,975 has been paid during the existence of the Office for claims under Life Policies, of which amount a very considerable part was for Bonuses.

The following TABLE shows the TOTAL ADDITIONS made to Life Policies for £1000, effected in London or through an Agent in Great Britain, which had been in force for the Thirty-eight years ending at Christmas, 1854:—

Persons assuring in Great Britain have the option of

PARTICIPATING RATES OF PREMIUM, or of
NON-PARTICIPATING RATES.

The Directors beg to announce that the Rates of Premium have been recently revised and readjusted in accordance with a long experience, and that

The NEW SCALE will be found very advantageous to Persons desiring to commence assuring early in life.

The NON-PARTICIPATING SCALE is particularly adapted to parties wishing to assure a fixed sum only, at a fixed rate of Premium, and on low terms.

Premiums may be paid *Annually*, *Half-Yearly*, or by a *limited number of Annual Payments*. The last-named mode of Assurance originated with this Office, in 1816.

FIRE DEPARTMENT.

The Company undertakes the Assurance of Property in the Manufacturing, Agricultural, and other districts on favourable terms. Risks of extraordinary hazard on special agreement, upon survey.

AN ALLOWANCE FOR THE LOSS OF RENT OF BUILDINGS rendered untenantable by Fire, is one of the advantages offered by the Company.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances, may be obtained on application to the Office, No. 92 Cheapside, London; or to any of the Company's Agents.

THE Company, established in 1823, has existed upwards of thirty-three years, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.
The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the WHOLE PROFITS Septennially divisible among the Assured, a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another. All the advantages of an Annual division is thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.
The greatest benefits are thereby bestowed upon all *first-class lives*, by no undue Bonus being paid away to those *who may die early*.

RATES OF PREMIUM EXTREMELY MODERATE.
The results of the *Fourth* Bonus Declaration of the Company recently completed, are exhibited in the following examples:—

Total Bonus Additions at 31st August, 1856, on Policies effected in the First Year of the Company's Business.

Age at Assuring.	Sum Insured.	1st Bonus, 31st Aug. 1835.	2d Bonus, 3d Aug. 1842.	3d Bonus, 31st Aug. 1849.	4th Bonus, 31st Aug. 1856.	Total Bonuses.	Total Amount Payable under Policy 31st Aug. 1856.	Rate per Cent. of Total Bonuses on Sums Insured.
	£	£ s.	£ s.	£ s.	£ s.	£ s.	£ s.	£ s. d.

45	1000	116 10	124 4	210 2	422 1	872 17	1872 17	87 5 8
35	1000	104 9	91 10	143 2	242 4	581 5	1581 5	58 2 6
30	1000	101 8	89 3	122 13	199 17	513 1	1513 1	51 6 0
19	500	46 15	43 4	57 0	74 5	221 4	721 4	44 4 10

Thus, at all ages from 19 to 60, on the earliest Policies the Accumulated Bonuses now range from upwards of £44 per cent. to upwards of £140 per cent. of the sums originally insured; and in one instance to upwards of £242 per cent., or nearly two and one-half times more than the sum assured.

To later entrants the results are, in proportion, equally satisfactory. No Entry-Money or other charge in effecting a Policy beyond payment of the premium.

THE STANDARD LIFE ASSURANCE COMPANY was established at Edinburgh in 1825. The Acts of Parliament, 2° & 3° Gul. IV. cap. 81, and 8° & 9° Vict. cap. 75, have been granted for the purpose of its constitution, and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connections of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance.

PROGRESS OF THE COMPANY'S BUSINESS.

The business of the Company since its institution has increased steadily year by year, until it has attained its present large amount. In 1855, the Company transacted a larger extent of business than any other Office in Great Britain.

The following shows the New Business transacted during the last ten years:—

Yearly Results—1846 to 1856.

		Sums Assured.	Annual Premiums.
1847	New Business,	£443,578 4 11	£16,140 0 1

1855	Do. Bonus Year	609,323 7 11	20,047 18 0
1856	Do.	516,351 6 7	16,769 3 4
	New Business in Ten Years,	£4,787,301 18 1	£159,373 18 1
	Annual Average,	£478,730 3 10	£15,937 7 10

The income of the Company is now upwards of a Quarter of a Million of Pounds Sterling.

DIVISION OF PROFITS.

One distinctive feature in the STANDARD LIFE ASSURANCE COMPANY, the operation of which has contributed in a marked degree to the great success of the Institution, is the mode pursued in the DIVISION OF PROFITS among the Assured, and the Directors request attention to its peculiar advantages. The Divisions are made at intervals of *five* years, and the system is such that the greatest benefits are derived by those members whose Policies are maintained for the longest period; in other words, *those who pay most Premiums*. Persons who effect Assurances as a provision for their families, or from other prudential motives, can thus look forward to *increasing* advantages as they advance in life, each period of Division they may survive bringing additional benefits.

EXAMPLES

Showing the Application of the Bonus as an Addition to the Sum Assured.

A Policy opened in 1825 for					£1000	0 0
received—

And at the Division in 1855,		306	0	0		
	Total,				783	0 0
Making the sum now Assured,					£2783	0 0

The share of Profits attaching to a Policy may be received in Casb, or be applied to reduce the Annual Premiums.

THE GENERAL REGULATIONS AND CONDITIONS of the Company have been framed in the most liberal spirit, and are such as to afford the utmost facility to Assurers and Assignees.

DIVISION OF PROFITS.

EXTRACTS FROM REPORT BY PETER HARDY, ESQ., ACTUARY, RELATIVE TO THE ASSETS AND LIABILITIES OF THE INSTITUTION, AS AT 31ST DECEMBER, 1855:—

It gives me very great satisfaction to be able to report to the Directors and the Members, that the Society is at this time in a most sound and prosperous condition, as will be best evinced by the Divisible Surplus on the 31st of December last. I can also give the Directors and Members assurance that the amount of profit divided has been fairly realized, and in no way includes future or anticipated profits.

THE FOLLOWING TABLE SHOWS THE SUMS ADDED TO POLICIES EFFECTED IN THE YEAR 1841:—

The uniform promptitude observed by this Institution in the settling of all claims—the extreme attention and expedition in effecting Insurances, together with the safe and liberal principles on which it is founded, giving to its members every advantage Life Assurance is capable of affording, have deservedly attained the success with which it has been attended, sufficiently proved by the fact that it has issued upwards of fifteen thousand Policies. It has now an annual income of £70,000, besides a large Accumulated Capital, the property of its members.

During the last two years upwards of Four Thousand New Members have joined the Institution.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.

2. No lawsuits—disputes, if any, settled by arbitration.

3. Any sum may be assured, from £25 to £5000, payable to the Member himself on attaining any fixed age, or at once to his representatives, in case of earlier death.

4. Arrears may be paid up at any time within twelve months, upon production of certificate of health.

5. Policies indisputable, except for palpable fraud.

6. Purchase of Policies, or issue in lieu thereof, of a Policy without Premium. The Society will always be prepared to purchase the Policies of this Office at their equitable value, or will grant a New Policy in lieu thereof, without any further payment of Premium, for a sum to be agreed on.

7. Loans are granted to the amount of the surrender value, without any other security than a deposit of the Policy. By this rule the risk of Members losing the benefits of previous payments from temporary pressure of circumstances is almost entirely removed.

8. A lower rate of mortality than in any other office in Great Britain.

9. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.

10. No entry-money or other charge. Policy stamp paid by the office.

11. Parties Insuring with this Society can deduct the annual premium on their own or their wives' lives from the assessment made upon them for income tax.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Sixteenth Annual Report, and every information, may be had at the BRANCH OFFICES, and at the CHIEF OFFICES in Edinburgh, Glasgow, Aberdeen, Manchester, Liverpool, London, Dublin, and Belfast.

The Scottish Branch of this Company is so constituted as to afford to Insurers all the benefits of Offices having their head-quarters in Scotland. I. The Company undertake to appear in Scotland should any suit be instituted in the Scottish Courts against them. II. The Company do not require Irish Probates or Letters of Administration to be taken out on the lapsing of Life Policies issued in Scotland.

FIRE DEPARTMENT.

Insurances undertaken at moderate rates of Premium: and this Company holds itself responsible for damage done by explosion of Gas, when such explosion takes place within buildings on or in which the Company has Insurance.

Policies transferred from other Companies free of charge.

Losses settled with promptitude and liberality.

LIFE DEPARTMENT.

Two points ought to be well considered by all who think of effecting Assurances on their lives:—

The intending Assurer ought, if possible, to make certain—

I. That the Company he chooses will afford him *absolute security* for the due fulfilment of its contract.

The Patriotic Assurance Company has been established for upwards of thirty-three years, with a Capital or Guarantee Fund of One Million Five Hundred Thousand Pounds, in addition to a large Life Fund accumulated from Premiums. It has, moreover, paid Claims amounting to more than Three Hundred Thousand Pounds.

The intending Assurer should have in view—

II. That the Company he fixes upon will afford him at least as good a return for his money as any other equally respectable and solvent Office.

In regard to this second and very important point, the Directors of the Patriotic Assurance Company invite the attention of the public to their New Life Scheme, which will, they feel convinced, go far to supersede the old method of assuring sums payable only at death.

By the New Life Scheme, should the person Assuring attain a certain specified age, 50, 55, 60, 65, or 70, or according to agreement, instead of having every year, during the remainder of his life, to pay out a large annual premium, *the amount covered by the Policy will be handed over to him to dispose of as he may think proper.* On the other hand, should he die before attaining the age specified, the amount covered by the Policy will be paid to his heirs.

To enable persons to take advantage of the New Scheme at once, and thus procure Policies at the low Premiums charged for young Lives, the Directors will allow one-half of the first Seven Years' Premiums in each case to remain unpaid, the remaining half bearing interest at five per cent.

EXAMPLE OF HALF CREDIT SYSTEM APPLIED TO A NEW SCHEME POLICY.

The first payment (including interest) required for £500 *Policy, taken out by a person aged twenty-five, and due at sixty-five, or death, is only* £5. 19*s.*

No charge for Entry-Money, Medical Fees, or Policy Stamp.

Loans advanced on approved Security in conjunction with Life Policies.

The estimation in which the Company is held by the public, is seen from the following brief statement of the

PROGRESS OF THE BUSINESS.

In the Life Department, the New Premiums received for the year ending August, 1856, were 30 per cent. in excess of those received for 1855.

In the Fire Department, after deducting all sums paid for re-insurance, the Premiums for 1856 exhibit an increase of £1,350 when compared with the Premiums of 1855.

The estimation in which this Company is held by the public may be gathered from the fact, that the increase for the year 1855, over the year 1854, in the Amount of Fire Insurance duty paid by it to Government on its Irish business, was greater than the increase of duty on the Irish business of all the other Companies put together, and exceeded that of any of the Scotch Companies, with two exceptions.—*See abstract from Parliamentary returns in Post Magazine and Insurance Monitor.*

LIFE DEPARTMENT.

1. Life Policies issued upon the faithful representations of Assurers indisputable.
2. Three-fourths of the Profits divisible amongst the Policy-Holders.
3. Policies granted from £25 to £10,000.
4. Premiums may be paid in One Sum, or by Yearly, Half-Yearly, or Quarterly Instalments.
5. Policies which have been upwards of Four Years in existence purchased by the Society, or new Policies given in Exchange equivalent to the then value of the Premiums paid, on which no further payment is required.
6. On Policies of £200 and upwards, for the whole of life, One-half of the Premium may remain at Interest for Five Years.
7. Policies of Two Years' standing not forfeited by Suicide.
8. Annuities immediate and deferred, and Endowments granted.
9. No Expense to Insurers for Policy Stamps or Medical Examinations.

FIDELITY GUARANTEE DEPARTMENT.

THIS SOCIETY transacts guarantee business upon very favourable terms; and if combined with a proposal for life insurance, still greater advantages are given to the assured.

The Premiums of this Society are applicable to all ordinary classes of Risk, and range from 10s. per cent. and upwards. The rate in each particular case is dependent upon the nature of the duties, the system of accounts, and the extent of responsibility or trust reposed.

Private Sureties may be relieved from their liability by the guarantee of this Society.

For CLERKS engaged in BANKING ESTABLISHMENTS in Great Britain, the terms are peculiarly advantageous,—viz., commencing at Ten Shillings per cent., and diminishing One Shilling per cent. annually, until the rate is reduced to SEVEN SHILLINGS per cent., or equal to a reduction of 30 per cent. after three annual payments.

The rate of Premium for the Fidelity Guarantee of *Managers* and *Agents* of Branch Banks in Great Britain, when the amount exceeds £1000, or for Bank Managers and Clerks out of Great Britain, will be determined by special agreement.

The Guarantee Policies of this Society are accepted by the leading London and Provincial Joint Stock and Private Banks; the principal Railway Companies, Life and Fire Offices, Public Companies, Institutions, and Commercial Firms throughout the kingdom.

Prospectuses, Forms of Life Assurance, and Guarantee Proposals, Rates of Premium, &c., may be obtained from the Chief Office in London, or from the Branch Office, 42 West George Street, Glasgow, to either of which may be addressed applications for Agencies from parties in the various districts of Scotland where the Society is not yet fully represented.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of Dividends to Shareholders.

EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT DEATH.

Age—25	30	35	40	45	50
£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
1 18 0	2 1 6	2 6 10	2 14 9	3 5 9	4 1 7

Thus, a person of 30 may secure £1000 at death for a Yearly Payment of £20. 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same yearly outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions.

PROFITS.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with accumulated Interest, amount to the sums in their Policies.

The practical working of the system has been that, at the First Division of Surplus, Bonus Additions were made to the Policies which had come within the Participating Class,

VARYING FROM 20 TO 54 PER CENT. ON THEIR AMOUNT.

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling, or residence abroad, and of obtaining advances on the value of the Policies—the Regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office; or at the

THE DIRECTORS beg to intimate that the BRANCH OFFICE of the Association in GLASGOW,

No. 105 ST. VINCENT STREET,

IS NOW OPEN FOR THE TRANSACTION OF BUSINESS.

THE Association undertakes every description of risk contingent on human life, either at home or abroad, embracing all the usual forms of LIFE ASSURANCE, ANNUITIES, and ENDOWMENTS, combined with liberal provisions for the advantage, convenience, and accommodation of the Assured.

The Assured on the Participation Scale share in the Profits to as large an extent as in the Mutual Societies, and without liability.

Additions, amounting to upwards of £100,000, have already been made to the Participation Policies. Thus, Policies for £1000 opened in 1840 have been increased to £1,245, being an addition of nearly Twenty-five per Cent. to the Sum Assured. The Profits may, if preferred, be applied in Reduction of Premiums. Policies now effected will participate in the Third Division of Profits in 1860.

SPECIMENS OF BONUS ADDITIONS ALREADY DECLARED.

Claims are paid either in London, Edinburgh, or Glasgow, and either on Scotch or English Titles; and persons transacting with the Office in Scotland secure every benefit they can obtain in an *exclusively* Scotch Office. The Claims paid by the Office since its commencement amount to upwards of £250,000.

Loans are granted, in connection with Life Assurance, on approved personal or other security.

Annuities, Immediate, Deferred, and Contingent; and Endowments.

No Entry-Money or Stamp Duty charged.

Prospectuses, with Tables of Rates, &c., may be obtained at the Head Offices, or from the Agents in all the principal Towns of Scotland.

LIFE DEPARTMENT.

The Association undertakes every description of business contingent upon the duration of life.

The Deed of Constitution provides that the Life and Fire Departments shall be kept totally separate and distinct, so that the accumulated funds of one department shall not be liable to make good the losses of the other.

The Assured, in addition to possessing the advantage and security of a large paid-up and subscribed Capital, enjoy the valuable privilege of participating in the profits of the Association to the extent of 80 per cent., which must be considerably enhanced by a portion of the expenses of management being borne by the Fire Department.

Assurances consist of two classes—the *Participating Class*, taking four-fifths, or 80 per cent., of the profits of the Society (to be added by way of bonus, by reducing the Premium, or by receiving its equivalent in cash); the other, the *Non-Participating*, which is not entitled to any part of the profits; the rate of Premium for each clas being regulated proportionably.

HALFS CREDIT ASSURANCES.—Policies may be effected on the Half Credit System; half the annual payments being allowed to stand over for five years, when the arrears may be paid off, or remain as a debt on the Policy, and be deducted when the claim is paid, on the death of the Assured.

Premiums may be paid either yearly, half-yearly, or quarterly, as may suit the convenience of the Assured.

FIRE DEPARTMENT.

The Company Insures almost every description of Property.
A Liberal and Systematic Classification of Risks.
Every Reasonable Allowance made for improvements in the construction of Buildings.
Rates of Premium charged for each Risk, as the circumstances of the case may justify.

N.B.—Persons insured in other Offices, can transfer their Policies to this Company without any expense, trouble, or inconvenience.

FIRE INSURANCE.

THE NEW TARIFF FIRE RATES FOR GLASGOW AND ITS SUBURBS.

THE "DEFENDER" A NON-TARIFF OFFICE.

It has been determined by nearly all the Insurance Companies to combine in exacting an additional rate from the Insurers of Glasgow and its Suburbs; but this Company, adhering to the principles upon which it was founded, has *refused* all *overtures* to join in such a combination. The "Defender" was (as its very name implies) called into existence in consequence of the old Companies enforcing combination rates. It was founded for the purpose of adapting fair and reasonable rates to every risk. It has persevered with great ad-

vantage in so doing for *eleven years*. It will still pursue that policy to which it is morally bound, and will hold itself independent of any combination of rates whatever. At this juncture the Insurers of Glasgow are solicited to continue their liberal support in favour of an office that has the independence to defy the combination of any and all other Companies, and to continue in that course to which its founders pledged themselves to the public.

Among the many advantages offered by this Company to Insurers, are the following:—

1.—The Security of a large paid-up Capital, whereby all claims upon the Company are amply provided for.

2.—Prompt settlement of Claims. All Fire Claims paid *immediately* upon the amount of loss being ascertained, and all Life Claims within three months after satisfactory proof of the death of the Insured, or sooner by arrangement with the Directors.

3.—Moderate Rates charged both in Fire and Life Insurance, the Company being established on a defensive principle, and not for speculative purposes.

Small Sums in the shape of profit are, by some Companies, returned to the Assured at the end of a term of years, but the "DEFENDER" by naming, when the risk is first offered, LOWER RATES OF PREMIUM than are generally charged by other Offices, will be found to put parties on a better footing than the system of Bonuses every seven years.

LIFE INSURANCE.

The Tables of Premiums have been reduced as low as can safely be done, avoiding the risk consequent upon insufficient charges. Credit is given, if required, for a portion of the Annual Premiums during the first Five years, the remainder becoming a charge upon the Policy for such period as may be agreed upon, with interest at 5 per cent. Premiums received Half-yearly or Quarterly, as may be convenient. The Insured on the Participation Scale are entitled to two-thirds of the Profits, and may receive the amount in cash, by an addition to the sum insured, or by a reduction of the Annual Premium.

The BONUS DECLARED UPON POLICIES PARTICIPATING IN PROFITS FOR THE FIVE YEARS ENDING 1852, WAS EQUAL ON AN AVERAGE TO 40 PER CENT. UPON THE PREMIUMS PAID. Policies indisputable, except in cases of palpable fraud. No Stamp Duties are now charged upon Life Policies; and it should be borne in mind that the Income Tax Act expressly exempts from charge so much of income as is required to pay Life Policy Premiums. All Life claims paid within 3 months after satisfactory proof of the death of the Insured, or sooner, by arrangement with the Directors.

Forms of Proposals, Tables of Rates, and all other information, may be obtained on application to the Agents for Glasgow.

SPECIAL CONDITIONS.

CLASS A.

RESIDENCE.

Persons Assured in this class have permission to reside—

In any part of Europe.

In British North America.

In any part of the United States of North America, to the northward of the southern boundaries of the States of Virginia and Kentucky, eastward of the 100° of west longitude; and from 30th November to 1st June, persons may travel or reside in any part of the United States and Territories, as organized in 1847. Residence to the southward and westward of the above limits charged at an increased rate, according to circumstances.

In the Mauritius.

In Africa (Cape Colony), to the southward of 30° of south latitude.

In Australia (including New Zealand), to the southward of 30° of south latitude. The northward of that limit charged at an increased rate, according to circumstances.

VOYAGES.

Persons Assured in this Class have permission to pass—

From any part of Europe to another, without extra charge.

From any part of North America to another, within the limits before specified, without extra charge.

From any European Port to any North American Port within the above limits, without extra charge.

From any European Port to the Cape of Good Hope or Mauritius, without extra charge.

From any European or North American Port within the above limits, to Australia or New Zealand, at £1 per cent. each voyage.

PERSONS Assured in this Class may proceed to those parts of the world embraced by any other Class, paying the corresponding Premium, in terms of General Regulations and Conditions, for which, see large pamphlet.

The Directors of the **COLONIAL LIFE ASSURANCE COMPANY** request attention to the following particulars:—

Home Insurances effected on most liberal terms.

From the name of the Company it might be inferred that the Colonial do not grant Assurances on the lives of persons resident in the United Kingdom; but the Directors wish it to be known, that they do transact such business, and they are satisfied they can hold out advantages to assurers which purely Home Offices cannot confer.

Home Rates of Premium charged for British North America, the Cape, Mauritius, Australia, and part of the United States.

Foreign Insurances at all times negotiated,—also,

Persons who have no present intention of proceeding abroad, but whose business or pleasure may at some future period induce them to travel, have, by assuring with the Colonial, the advantage of knowing exactly beforehand the additional rate, if any, that would be charged for such increased risk, the Company's rates for Foreign Residence being published and referred to in their Policies. Assurers are thus protected against an arbitrary charge, to which they are exposed under the ordinary Policies issued by other Life Assurance Offices.

Military, Naval, Mercantile Marine, and Whole-World Assurances effected.

Bonus hitherto declared, £2 per cent. per annum.

Next Investigation and Division of Profits will be made in 1859, *and quinquennially thereafter.*

From the extensive field of business which the Company is cultivating, and from the great success which has attended its operations, the Directors look forward to large future Profits available to their Policy-holders; and they do not think they over-estimate the advantages of the Company, in stating that no Office affords so many facilities, and at the same time holds out the prospect of so much advantage to Assurers.

Reduced and Moderate Rates.

Thirty days of Grace allowed for payment of Premiums.

No Entry Money or charge for Policy stamps.

Medical Fees paid by the Company.

Agencies and Local Boards in every British Colony.

Claims Paid in Great Britain or in the Colonies.

By Order,

THIS OFFICE has been established upwards of twenty years, during which period a very large amount of FIRE and LIFE BUSINESS has been done in Scotland; and the increasing business of this Company is to be attributed to the numerous advantages and facilities it offers to the Commercial Community, as well as the LIBERALITY with which all its operations are conducted.

FIRE DEPARTMENT.

This Company issues Policies upon every description of Property, including Mills and Special Risks, upon the most favourable terms.

Policies transferred from other Offices free of expense.

The Renewal Receipts of Fire Policies can be made to fall due at either the Scotch or English Terms.

LIFE DEPARTMENT.

In this branch of business this Company offers peculiar advantages, combining all the improvements in the mode of Insurance which experience has proved to be desirable, with the security arising from a large subscribed capital and an established business, and likewise the benefit the Life Policy holders derive from the profits accruing from the Fire Department.

Life Insurances are effected in all its branches, both at home and abroad, at the most moderate rates consistent with security to the assured, comprising

WHOLE LIFE AND SHORT TERM POLICIES.
INSURANCES FOR ADULTS, PAYABLE AT A STATED AGE, OR CONVERTIBLE INTO ANNUITIES.
ENDOWMENTS FOR CHILDREN, PAYABLE AT ANY PERIOD BETWEEN THE AGES OF 14 AND 21.
DECREASING OR INCREASING SCALES OF PREMIUMS.

ONE-HALF of the Annual Premiums for the first Five Years may remain as a permanent charge upon the Policy, at five per cent. per annum interest.

One of the most advantageous plans of Insurance yet offered to the public, and adopted by this company, is that of allowing

ONE-THIRD of the Premium to remain unpaid until Death, thus affording an opportunity to Insurers of effecting a Policy for £1500 at the Premium otherwise required for £1000.

PARTNERSHIP POLICIES are issued on the Joint Lives of two or more partners, to cover the Capital withdrawn in case of the death of either; and when effected on the principle of allowing ONE-THIRD of the Premium to remain unpaid during the whole term of life, the expense is trifling, and is a mode of Insurance strongly recommended, being a great benefit to the survivor, and frequently preventing much inconvenience; and this will also be found a desirable mode of Insurance to the

MARRIED. Joint Policies being issued on the above plan, the expense is considerably reduced, and a Policy fo One-Half more secured. This important fact is also urged upon the consideration of those wishing to make a

MARRIAGE-SETTLEMENT, a desideratum of the greatest importance to parties in all positions of life.

There is one feature of Insurance that is not generally taken into consideration by the commercial world, namely, The desirability of covering the loss likely to be sustained on the FORCED SALE of the Stock, at the death of the Owner. As, for instance, a stock worth £1000 would not, in most cases, realize more than £700; and, therefore, were a Life Policy held for £300, the deficit would be covered at a comparatively small yearly outlay.

Persons desirous of discontinuing their Policies can have them converted into Absolute Reversions, provided they have been in existence for five clear years. For example, a Policy now in force for £2000, effected in 1839, on a life aged 41, could now be exchanged for one for £1030 8s., free from all further premiums. This plan is highly favourable to Insurers, as it prevents a serious loss being sustained by the sale of the Policy.

CREDITORS and others having a *bona fide* interest in Policies, can have them rendered indisputable securities.

This Company has Agencies established in all the leading Towns and Cities in the United Kingdom.—Prospectuses and all particulars can be obtained at the Office, or from any of the Agents of the Company.

LIFE ASSURANCE.

THE system adopted by this Company gives to the Assured every advantage Life Assurance is capable of affording, and combines the benefits of Mutual Assurance with the guarantee of a Capital of One Million, fully subscribed, besides a large accumulated Life Assurance Fund. The whole profits, after reserving *one-tenth* for the Guarantee, are divided amongst the Assured, each Policy drawing in proportion to the Sum insured, and the number of Annual Premiums paid during the period of division; previous Bonuses being reckoned additions to the Sums insured, and, as such, entitled to participate. Thus, for example, a Policy of £1000, having £285. 16*s.* of previously-vested Additions, was at 31st December, 1851, ranked as

A Policy for	£1285 16 0
And had a further addition made to it of	112 10 3
And will, according to the principle of division above mentioned, be ranked at next investigation, on 31st Dec. 1858, as a Policy for	1398 6 3

This mode of allocating the profits is at once the most natural and the most equitable for all parties, whatever the age may be; for, when it is remembered that the Bonus is declared as an addition to the Sum insured, *payable when the Policy becomes a claim*, it is seen that the age of the Assured is taken into account, as the present value of the Bonus varies with the age of the party. For example—

A Bonus Addition of £100 to the Policy of a person now aged 30, is worth in cash or present value,	£31 6 8
While a like addition to the Policy of a person now aged 60, is worth in cash or present value,	58 19 2

THE PROFITS ARE DIVIDED SEPTENNIALLY; BUT A PROSPECTIVE ANNUAL BONUS IS GUARANTEED TO SUCH PARTICIPATING POLICIES AS BECOME CLAIMS BEFORE, OR BETWEEN, THE REGULAR PERIODS OF DIVISION; SO THAT A BONUS IS ALLOWED BY THE COMPANY FOR EACH YEARLY PREMIUM PAID. THIS IS A MOST IMPORTANT FEATURE, AS IN MANY OFFICES A POLICY MUST BE IN EXISTENCE FIVE OR SEVEN COMPLETE YEARS BEFORE ANY BONUS IS DECLARED THEREON.

THE BONUS ADDITIONS UP TO LAST SEPTENNIAL DIVISION, 31ST DECEMBER, 1851, RANGED FROM 25 TO 70 PER CENT. ON THE PREMIUMS PAID.

GENERAL FACILITIES.

1. Premiums moderately rated at all ages, and so adjusted as to suit the objects and convenience of parties; and the Sums insured may be made payable to the party himself on attaining a specified age, or to his heirs or assignees at his death, if he should die earlier.

2. No Stamp-Duty nor Entry-Money charged. Medical Fees paid by the Company.

3. ONE-HALF OF THE PREMIUMS MAY REMAIN ON CREDIT FOR THE FIRST FIVE YEARS; OR ONE-THIRD DURING THE CONVENIENCE OF THE ASSURED, INTEREST BEING PAID ON THE PORTION ON CREDIT.

4. Bonuses may *at any time* be commuted for a Cash Payment, or applied in reduction of future Premiums. Advances made on Policies to the extent of their acquired value.

5. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them.

6. Twenty-one days allowed for Payment of Premium after they become due, and in the event of the Party dying, payment within Twenty-one days by the Representatives held sufficient for preserving the Policy.

SPECIAL ADVANTAGES.

1. On proof of age, Policies are declared *indisputable*, on any ground whatever, after the lapse of *five years* from their date, provided the Premiums, ordinary or extra, stipulated by the Policy, be duly paid.

2. Certificates granted on application, declaring Policies exempt from payment of extra premium for travelling or residing beyond the limits of Europe, or for entering into Military or Naval service, and from the necessity of applying for License to do so, from and after the expiry of five years from their date, provided it shall be shown to the satisfaction of the Directors that the Assured have, at the time of the application, no intention or prospect of going abroad, or entering into Military or Naval service.

By these arrangements the Policies of this Company are rendered more valuable as a family provision, or as a transferable security in money transactions, and more marketable when wished to be disposed of.

FIRE INSURANCE.

This Company Insures against Loss or Damage by Fire almost all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in harbour or in dock, and Farming Stock of all descriptions, at the lowest rates of Premium corresponding to the risk.

The Rates of Annual Premiums on the Three Ordinary Classes of Insurance are:—

Common, 1s. 6d.; Hazardous, 2s. 6d.; Doubly Hazardous, 4s. 6d.,
with certain exceptions.

Rents of Property Insured on the same terms as the Buildings.

Farm Stock and Crop insured, *in cumulo*, on one Farm, without the average clause, at 4s. per cent. (free of Duty), and Loss and Damage by Lightning thereon made good.

The Rates for all Insurances, not coming under the above heads, are fixed by special agreement.

N.B.—The Policies of this Company extend to cover Loss and Damage occasioned by Explosion of Gas.

No charge is made for Policies when the Sum Insured amounts to £300.

LOSSES SETTLED WITH PROMPTITUDE AND LIBERALITY.

Prospectuses, containing Tables of Rates, and every other information, may be had at the Head Office in Edinburgh, or of any of the Company's Agents in the country.

LIFE DEPARTMENT.

THE arrangements of this Office are based on principles that have been verified by experience. The rates for assurances of fixed sums are very moderate.

Extra Premiums for foreign residence have been dispensed with to such extent, that a large proportion of the assured, who may go abroad, will be free from any charge on that account, excepting for sea risk; and a very important rule has been adopted to protect the interests of parties holding Policies on the lives of others, who may incur extra risks without the knowledge of the holders.

For surrender of Policies of the ordinary class, after three years' endurance, a liberal return of Premiums, according to a fixed rule, *is guaranteed*, besides the value of vested Bonuses where such have been declared.

According to the constitution of the Company, Investigations must be made at intervals not exceeding five years. The last Investigation took place at 31st January, 1857, when Bonuses were added to all Assurances of the Participation Class; and the following results of this and previous Declarations may be stated.

1. A Policy for £1000 on which seven years' premiums have been paid is now increased to £1095 9 4
2. A Policy for £1000 on which twelve years' premiums have been paid is now increased to £1163 18 8
3. A policy for £1000 on which seventeen years' premiums have been paid is now increased to £1234 18 2

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

SCOTTISH UNION FIRE AND LIFE INSURANCE COMPANY.

LONDON, 37 Cornhill. | EDINBURGH, 47 George Street. | DUBLIN, 52 Dame Street.

Incorporated by Royal Charter, and Established 1824.

GLASGOW BOARD.

Chairman—ALEXANDER MORRISON, Esq.

John Ewing, Esq.	James Fleming, Esq.	Coll M'Gregor, Esq.	D. C. Rait, Esq.
A. Cnthbertson, Esq.	James Morrison, Esq.	J. Blackie, Jun., Esq.	Wm. Forrester, Esq.

HUGH MONCRIEFF, Esq., *Secretary.*

THE SCOTTISH UNION INSURANCE COMPANY was instituted in 1824, and is Incorporated by Royal Charter, and Empowered by Act of Parliament. It is composed of a very numerous, wealthy, and influential body of Proprietors, and affords the most unquestionable security to the Public from the magnitude of its Capital—a large proportion of which is invested in Government and real securities.

FIRE DEPARTMENT.

FOR INSURING PROPERTY AGAINST LOSS OR DAMAGE BY FIRE.

Property of almost every description may be secured against accidents arising from Fire, by the Payment of a small Annual Premium; and Risks involving more than ordinary hazard are moderately rated.

All Losses, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors of this Incorporation confidently refer to the liberality and promptitude which have hitherto marked their settlement of claims.

The Progressive Increase of the Company's Fire business is shown in the following Table of the Duties paid to Government, and of the Sums Insured on Farming Stock, taken from the Parliamentary Returns:—

Year.	Amount of Duty Collected, 3s. per £100.	Sum Insured on Farming Stock.
1846	£17,683	£857,194
1849	22,291	1,124,482
1852	24,473	1,373,282
1855	26,040	1,572,240
1856	26,768	1,639,775

INSURANCES OF FARMING STOCK.

Farming Stock, which includes Hay and all sorts of Corn and other Grain, Implements of Husbandry, and Live Stock, may be insured with this Company, against Loss by Fire or Lightning, in one sum on a Farm, and in the Offices, *without any Average Clause,* for a year or for any shorter period. The Thrashing Mill Machinery requires to have a separate value stated thereon.

Losses caused by Lightning to Farming Stock are Paid; and no Government Duty is Chargeable on the Insurance of Farming Stock.

Amount Insured by Scottish Union Insurance Company on Farming Stock for Year ending Christmas, 1856, £1,639,775.

LIFE DEPARTMENT.

Two-thirds of the ascertained Profit are divided every Five Years among those Policies entitled to Participate, in proportion to their Contributions during that period.

BONUSES

Have been declared in 1841, 1846, 1851, and 1856. At the last investigation in 1856—

A Reversionary Bonus was allocated upon those Policies entitled to participate, in proportion to the Premiums paid during the five preceding years, varying from One to One and a Half per cent. per annum on the sums assured, according to age and duration of the Policy.

The following examples are taken from the Company's Books:—

No of Policy.	Issued in	Sum Assured.	Total Additions as at 1st August 1856.	Total Sum payable.
812	1834	£4000	£1236 8 4	£5236 8 4
1060	1835	5000	1404 11 11	6404 11 11
1190	1835	3000	886 14 9	3886 14 9
1368	1836	5000	1290 2 10	6290 2 10
1650	1837	2500	603 6 9	3103 6 9
2164	1840	5000	1147 12 3	6147 12 3

The Reversionary Bonus may be applied, at the option of the Assured, in any of the following ways:—

1. *It may be added to the Sum Assured; or*
2. *Applied in Reduction of Future Premiums; or*
3. *Surrendered for its present value in Cash.*

The next Division of Profits will take place in 1861.

NON-PARTICIPATING POLICIES.

The low Rates charged in the Non-Participating Class are peculiarly well adapted for Loan Transactions; also, where the object is to assure a specific Sum payable at death, at the lowest rate of Premium compatible with Security.

Copies of Prospectus, and all other information, may be obtained on application at the Head Office of the Company, 47 George Street, Edinburgh, or at any of the Company's Agents.

Law Agent,.....J. G. HOUSTOUN, Esq., 32 Royal Exchange Square.

Manager.....WILLIAM MUDIE, Jun., Esq., Accountant.

SOCIETY'S OFFICE—109 WEST GEORGE STREET, GLASGOW.

BESIDES affording a Safe and Profitable investment for capital, the prominent objects of this Society are—1st, To give Loans or Advances to Members to enable them to Build or Purchase Heritable Property; 2nd, To enable them to Rebuild, Alter, or Improve Property already acquired; and, 3d, To make advances either by priority or by competition. Members are at same time allowed to withdraw the amount of their subscriptions with interest.

The success of this Society is unequalled for the time it has existed, the number of Shares allotted being Three Thousand Four Hundred and Forty—representing a Capital of £86,000—while it has been enabled to dispose of £8000 among its Members.

The Profits during the past year have been equal to 47 per cent. upon the Instalments paid by Members during the respective period they have contributed, which shows the great success which the Society has attained.

Applications to be made to the Manager, who will furnish Copies of the Rules.

THIS Society, on closing its fourth year, shows Sixty-three per cent. on the portion of the original Shares of £25 each, paid up by the monthly contributions of 2s. 6d. on each share, and the LARGE PROFITS arising from the successful working of the Society.

The more prominent advantages of this Society are:—

1. The admission, at any time, to any number of Shares.
2. A Loan on Property to the extent of the value of the Shares subscribed for.
3. The Society is Permanent, which allows all incoming Members the full benefit of Profits till their Shares are complete.
4. Liberty at all times to withdraw the whole amount of paid-up Capital, with four per cent. Interest for the first year, and five per cent., free of Income Tax, for every year afterwards; or Shares may be transferred.
5. A well-digested Code of Laws, with Tables of Interest subjoined, so that no misunderstanding can take place.

Copies of the Rules and every information may be had at the Society's Chambers, or from its Agents.

LIFE DEPARTMENT.

THE ALLIANCE COMPANY, Instituted 1824, and Established by Act of Parliament, offers the most important advantages in the Life Department.

FIRST—*Perfect security from a subscribed capital, and a large accumulated Life Fund.*
SECOND—*Moderate rates of Premium, especially for the younger ages.*
THIRD—*A large share in the Profits,* FOUR-FIFTHS, *or* EIGHTY PER CENT. *of the Declared Profits being divided quinquennially among those entitled to Participation.*
FOURTH—*Policies without Participation in Profits issued at very reduced rates of Premium.*

FIRE DEPARTMENT.

THE INSURANCE COMPANY OF SCOTLAND, Instituted in 1821, and Incorporated by Royal Charter, was united with the Alliance Office in 1847.

The Directors would invite special attention to the perfect security offered to the Insured, to the rates of Premium which are regulated by the character of each risk, and to their immediate and liberal settlement of losses when the claim is adjusted.

The object of this ASSOCIATION is to promote the knowledge and love of the FINE ARTS, and their general advancement, by an extensive distribution of the WORKS OF LIVING ARTISTS, and to elevate ART and its PROFESSORS, by creating an increased desire for their WORKS, and an improved taste on the part of the PUBLIC.

I.—It is under the direction of a COUNCIL OF MEMBERS, who are chosen by the Subscribers at the GENERAL MEETING, whose services are honorary, four of whom retire from office annually.

II.—Subscribers of **Ten Shillings and Sixpence** are members of the ASSOCIATION for the year for which the Subscription is paid.

III.—The funds of the ASSOCIATION are appropriated to the purchase of MODERN WORKS OF ART, in PAINTINGS, DRAWINGS, and SCULPTURE; and those WORKS OF ART are publicly distributed by *Lot* at the ANNUAL GENERAL MEETING of the MEMBERS, when each Subscriber shall be entitled to one chance for every *HALF-GUINEA* Subscribed; and each member who gains a *Prize* shall receive due intimation thereof.

IV.—No WORK OF ART, other than the *bona-fide* production and property of the ARTIST, shall be purchased by the Association.

V.—PRIZE-HOLDERS shall have the liberty of selecting the WORK OF ART most suited to their taste, according to the number of the Prize, No. 1 having the first choice, and so on.

Each Subscriber shall receive a copy of the elegant and valuable Engraving on Steel, in pure line, of "BENJAMIN WEST'S FIRST SKETCH," Painted by E. M. WARD, R.A. Engraved by J. CARTER, Esq.

NOTE.—Subscribers of more than One Share have the following privileges:—
Two Shares:—Two chances for the Prizes—Two Prints, or a proof on India Paper of the Engraving for the year.
Five Shares:—Five chances for the Prizes—Five Prints, or a Proof before Letters of the Engraving for the year.
Ten Shares:—Ten chances for the Prizes—Ten Prints, or an Artist's Proof of the Engraving for the year.
Or, if preferred, a Copy of last year's Engraving of "BISHOP JUXON AND CHARLES THE FIRST," Painted by S. BLACKBURN, Esq. Engraved by CHARLES KNIGHT, Esq.

Subscriptions received by any of the MEMBERS OF COUNCIL, by the HONORARY SECRETARIES and AGENTS in Town and Country, and at the OFFICE OF THE ASSOCIATION, 11 WEST NILE STREET, GLASGOW.

OFFICE—146 BUCHANAN STREET.

THE objects of the ASSOCIATION are to encourage the application of High Art to Works of Utility and Ornament, and to assist in elevating the standard of public taste in reference to such productions.

These objects it is proposed to attain by an extension of the system of Art-Unions, which has already been so successful in the encouragement of Painting and Sculpture. It is intended to have periodical Exhibitions of Works of Manufacture, remarkable for beauty of design and execution, and to distribute among the Subscribers such of the articles exhibited for sale as may be thought worthy of being purchased under the superintendence of a Committee annually appointed.

The subjects to be acquired for distribution are intended to be exclusively such as may be properly described as Works of Art Manufacture. They will embrace works in metal, stone, wood, or marble, in enamel, papier mache, porcelain, glass, or stoneware, tapestry, and, generally, all articles to the production of which artistic talent has been applied.

In the prospect of obtaining a very large body of Subscribers, the Commitee have been enabled to make such arrangements as will secure a Prize to each Subscriber of a Guinea. In this way, while having the chance of obtaining one of the higher Prizes, which will embrace articles of value, Members of the Association will have the certainty of getting an object of Art Manufacture; and in the case of the lower-priced Prizes, no one article will be distributed in such quantities as will lower its value by making it too common.

The First Distribution of Prizes will take place early in June, till which time the Subscription List will remain open.

I. M. SINGER & CO.'S
AMERICAN SEWING MACHINES

Have received Twelve Medals from Twelve different States, in Expositions in the United States, and the Medal of Honour at the "Paris Exposition Universelle."

WE take the pleasure of informing the Public that we have Opened a BRANCH OFFICE for the Sale of our Machines, at

No. 11 BUCHANAN STREET,

where all are requested to call and examine for themselves, and have ocular demonstration of their superiority. The advantages of this Machine over all others now in the market are :—

1st. Its durability :—It will not get out of repair except by gross carelessness.

2nd. Its adaptability :—It will Sew the finest Linen, or Boots or Shoes, as well as Harness, by a simple change of the needles and thread.

3rd. Its speed :—A girl will perform twice the quantity of work in the same time than they would by any other Machine now in use, and for quality it cannot be surpassed; it makes a beautiful Back Stitch on both sides of the work, which will not ravel or rip, and is more durable than hand-sewing.

There are several thousands of these Machines in profitable operation in the United States and England, and never until the present have we been able to keep up with the demand so as to establish an office for their Sale in Scotland. Having increased our Manufactory four-fold, we are now able to offer to the Inhabitants of Scotland this invaluable labour-saving Machine, and respectfully solicit patronage.

☞ *Plain Printed Instructions for using are sent with each Machine, from which any one can readily acquire the Art of Managing them.—The Machines are packed securely to go to any part of the world.*

GLASGOW
LAND-SURVEYING CHAIN MANUFACTORY.

ESTABLISHED 1824.

TO CIVIL ENGINEERS AND LAND-SURVEYORS.

ALEXANDER DICK,

LAND-SURVEYING CHAIN AND SAFETY LAMP MAKER, AND PLAIN AND FANCY WIRE WORKER,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

TAKES this opportunity again to return his unfeigned thanks to those Gentlemen who have honoured him with their kind favours since he commenced the above line, and hopes, by prompt attention to their orders, as heretofore, still to merit a continuance of their patronage.

A. D. would earnestly solicit the attention of those gentlemen who may not, as yet, have given his Chains a trial, to do so; being confident, from the flattering testimonials received from eminent practical gentlemen, in different parts of the three kingdoms, of their superiority, and besides being made of the very best Charcoal Springwire (nearly as hard as steel), he feels confident a trial is only necessary to prove them second to none now in use; and to prevent counterfeit, '*Alexander Dick, Chainmaker, Glasgow,*' is on the middle teller or counter of those chains warranted. The following is an abridged list of his Prices, for Cash only.

FOOT LINK 100 FEET CHAINS.

100 feet long, 100 links, 200 round rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 11s. 6d. each; and with a set of No. 5 link, brass counters, 12s. 6d. each.

100 feet long, 100 links with long eyes and grooved joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 19s. each; and with a set of No. 5 link, brass counters, 20s. each; but with filed joints, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 17s. each; and with a set of No. 5 link, brass counters, 18s. each; but with filed joints, 17s. each.

A. D. would particularly recommend the Chains with long eyes and grooved joints (being his recent improvement), as the neatest and best he makes, with 300 oval rings; warrants them not to crank nor twist up, and less liable to stretch than those with round-eyed links and round rings, being made in a superior style.

SCOTCH SURVEYING CHAINS, WITH OR WITHOUT THE FRACTIONS, MADE ONLY TO ORDER.

IMPERIAL OR LINK-SURVEYING CHAINS.

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. and 8s. each; and with common wire, 7s. 6d., 7s., 6s. 6d., 6s., and 5s. 6d. each.

66 feet long, 100 links, with long eyes and grooved joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 17s. each; but with filed joints, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 15s. each; but with filed joints, 14s. each.

Imperial Link Mine Surveying Chains, with neat strong brass handles and copper swivels, with 10 links of brass wire at each handle, 19s. each, and with 10 links of brass wire also at the 50 and 60 links, 25s. each.

Surveying Chains made of cast-steel wire to any length, size of wire, or pattern, only to Order.

Large and small ring Swails, Planting and Holing Chains for the East and West Indies, made to Order.

Copper, Brass, Iron and Steel Wire, oval link Clock Chain, Pitch Chain, and Double-link'd twisted flat Chain, made to Order.

DAVY AND COMMON SAFETY LAMPS MADE AND RE-COVERED.

PLAIN AND ORNAMENTAL WIRE FENCE FOR PLEASURE GROUNDS, AND EVERY OTHER ARTICLE IN THE LINE, EQUALLY CHEAP.

JOHN FINLAY,

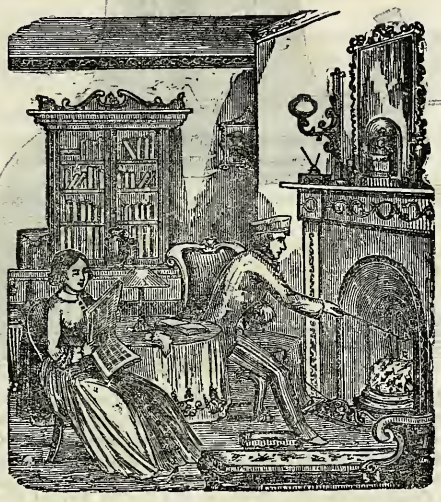

GENERAL FURNISHING IRONMONGER,

46 BUCHANAN STREET, GLASGOW,

AND RUMFORD WORKS,

INVENTOR AND PATENTEE OF THE

IMPROVED RADIATING STOVE GRATES, &c.

THE above sketch shows a sitting-room where one of the Patent Grates is fixed. The gentleman is in the act of adjusting the door or damper. This is done by pushing the door back or drawing it forward, and thus opening or shutting proportionally, and with one movement, the upper and lower escape apertures for the products of combustion. The lower draught at C is what is technically called a back flue. From its position it draws the disengaged gases either through or right over the burning fuel, which thereby becomes inflamed, making a cheerful blaze, and thus dispelling or consuming all smoke. The perfect command over the chimney draught obtained by this Grate, causes a powerful radiation of heat, and great economy of fuel.

In summer, fire-places in general present a dreary, forlorn aspect, by their wide open appearance. Now, this grate is shut by simply drawing forward the back, making the fire-place look smaller and less empty, and giving the apartment a finished appearance by its elegant and simple form. The fire-draught being thus easily shut, all currents down the chimney are avoided, and all dust, soot, or back smoke is confined within the vent.

IRON BEDS, GAS LUSTRES, LAMPS, AND OIL AND CANDLES TO SUIT.

CONDIE'S
PATENT STEAM HAMMER.

THE novelty of this Invention consists in the introduction of the Steam into the Hammer itself, which also acts as the Steam Cylinder. By this simple and compact arrangement, the liability to breakage of the Piston and Piston Rod, and abrasion of the Cylinder, are obviated—these being the evils so much complained of in Watt's Patent Steam Hammer of 1784, and others on the same principle, under different names. The superiority of this Hammer has lately been most satisfactorily proved by one of them having made the immense shafts and cranks (the largest forgings in the world) for the "Great Eastern" Steam-ship, at present building on the Thames by Messrs. Scott Russell & Co.

These Hammers are all made under the Subscriber's immediate inspection at Govan Bar Iron Works, of various weights, from 10 cwt. to 7 tons, suitable for Jobbing Forges, Puddling Forges, Engineers, Ship Builders, Wagon Builders, Smiths, &c. The Subscriber directs special attention to the many improvements which long experiences has enabled him to introduce into his Hammer by new designs of Standards, &c., combining freer access round the anvil, with increased facilities to the Workmen. He also refers to the following testimonials, which he has been favoured with from a few of his customers, as a guarantee that his Steam Hammers are of the best materials and workmanship, and for economy in working superior to all others at present in use.

TESTIMONIALS.

From GLASGOW IRON COMPANY, *Glasgow.*

WORKS: { Glasgow Iron Works, Glasgow.
Motherwell Iron Works, Motherwell.

WE have had one of Mr. Condie's 50 cwt. Improved Steam Hammers at work for two years—also another of 40 cwt. for one year; both of which have given us the greatest satisfaction. We Shingle Puddled Balls,

Scrap Blooms, and Slabs, for all of which purposes we find them most excellent machines. They are very easily kept, and at very little expense.

For Glasgow Iron Co., ROBERT CASSELS.

From MESSRS. ROBERT NAPIER & SONS, *Marine Engineers, Glasgow.*

JOHN CONDIE, ESQ.

DEAR SIR,—We find your 10 cwt. Steam Hammer, fitted in the Smithy in our Ship Yard, exceedingly convenient. It is easily worked, gives very little trouble, and has been in constant use since its erection. The greater part of the blacksmith work of the Steam-ship "Persia" was made under it, and it worked day and night continuously for about six weeks, at work for the "Erebus" Floating Battery.—Yours truly,

Glasgow, 21st May, 1856. R. NAPIER & SONS.

From MESSRS. J. SCHULTZE & CO., *Engineers, Oldenburg, Germany.*

JOHN CONDIE, ESQ., Govan Iron Works, Glasgow.

DEAR SIR,—In reply to your inquiry concerning the 30 cwt. Steam Hammer we received from you in 1852, we have much pleasure in stating that the same has been constantly working since that time for five Puddling Furnaces, and making forgings for heavy machinery. It has never been out of order, or required any repairs. In one word, we consider your Hammer the most perfect machine of the kind that can be constructed.—Believe us, dear Sir, yours truly,

Varel, Oldenburg, 20th June, 1856. J. SCHULTZE & CO.

From MESSRS. FULTON & NEILSON, *Lancefield Forge, Glasgow.*

JOHN CONDIE, ESQ., Govan Iron Works.

DEAR SIR,—In accordance with your request that we should testify as to your Steam Hammer, we beg to inform you that the large one of 6 tons, erected in October, 1853, is working very satisfactorily. From its unusual size and character, we, indeed, at first experienced some difficulty in working it efficiently, but the alterations you have made upon the valve gearing has improved it considerably, and it is now pleasing us very well. With reference to the 45 cwt. Hammer, erected upwards of five years ago, we certainly can report very favourably. It is a hammer of a very superior description. It has given us every satisfaction in the working, and the repairs upon it have been exceedingly moderate.—We are, dear Sir, yours truly,

Lancefield Forge, Glasgow, 30th June, 1856. FULTON & NEILSON.

From H. W. HARMAN, ESQ., C.E., *Marine Engineer, Northfleet, Kent.*

JOHN CONDIE, ESQ.

DEAR SIR,—I beg to state that both the 10 cwt. and 30 cwt. Patent Steam Hammers supplied to Mr. Pitcher, and erected here, have given me every satisfaction. In a time of pressure they enabled us to execute an immense amount of work in a very short period, their excellence consisting in the simplicity of the details, and their consequent non-liability to derangement. In our case boys work them, and this, coupled with a minimum of wear and tear, insures us two most economical and efficient machines.—I am, dear Sir, very truly yours,

H. W. HARMAN, C.E.

PRICE'S
PATENT CANDLE COMPANY
(LIMITED),

BEG TO CALL THE ATTENTION OF SHIPPERS AND OTHERS TO THEIR

NEW LIST OF PATENT CANDLES,

All of which burn perfectly without snuffing.

BELMONTINE.—The Company are now manufacturing from this their beautiful new material, candles which burn much longer than the finest spermaceti, and far surpass it in transparency, beauty, and strength of light.

BELMONT SPERM.—Nothing need be said about these, as their reputation is as well established in Australia, South America, and the East and West Indies, as at home.

EXTRA QUALITY BELMONT SPERM.—Absolutely pure white, and very hard. These are packed in ornamental boxes, containing 1 lb. and 4 lbs. each.

STEARINE CANDLES.—Are as hard, and burn as well as the Belmont Sperm, but are darker in colour. They are the most economical candles for use in hot climates.

PRICE'S CANDLES WHICH WILL NOT DROP GREASE WHEN CARRIED.—These, used as chamber candles, prevent any damage to dresses and carpets. They should be burnt in the imitation bronze candlesticks made expressly for them.

PRICE'S PATENT SHIP LIGHTS.—Made to burn 3, 4, 5, or 7 hours *(as manufactured for the ships chartered by Her Majesty's Emigration Commissioners)*, and when burnt in Price's Patent Ship Lanterns will stand a gale of wind, without being blown out; they are perfectly safe, clean, and very economical.

BELMONT GLYCERINE SOAP.—This already popular Soap contains Price's Pure Glycerine. It prevents and allays any irritation of the skin in hot climates, gives comfort in shaving, and will be found a most agreeable general toilet soap. In cold climates it prevents the hands chapping.

PRICE'S PURE DISTILLED GLYCERINE.—"A Correspondent in Guatemala says, Glycerine is invaluable for a tropical traveller: a little of it applied to a mosquito bite instantly relieves; no scratching and sores on the legs as before; it is perfectly marvellous; and I would not travel on these coasts without it now."—*Illustrated News, Feb.* 28, 1857.

EXTRACT FROM A LECTURE delivered before the Society of Arts, London, January 23, 1856.

"Candles are commonly packed in single pounds by the Foreign manufacturers; these now usually contain candles weighing only from 13 ozs. to 15 ozs. Price's Patent Candle Company, Limited, are about to adopt two sizes of packets for the Export Markets, where they meet the Foreign manufacturers; one labelled prominently as weighing 1 lb. of 16 ozs.; the other labelled prominently as weighing three-quarters of a pound, or 12 ozs. of a smaller size of candle. It may be hoped that this will restore the original pound packets; at present they are going the way bottles have gone.

WRITING DESK, DRESSING CASE, BAGATELLE BOARD, AND FANCY CABINET MANUFACTURER,

158 HOPE STREET

(BETWEEN WEST GEORGE STREET AND REGENT STREET), GLASGOW,

TAKES the present method of returning thanks to his numerous customers for the very liberal patronage received, hopes by his usual punctuality in completing orders entrusted to him, to merit a continuance of past favours.

GEORGE AUSTIN having now had upwards of Eighteen Years' practical experience in designing and making every description of Writing Desks, Dressing Cases, &c., the following is a List of articles warranted made in his own workshops on the premises:—

Writing Desks and Dressing-Cases (including the much admired Fall Front Dressing Case), in all the various Fancy Woods, Walnut, Ebony, Coromandel, Mahogany, and Rosewood, Work Tables, Work Boxes, Jewel Cases, Tea Caddies, Chess and Backgammon Boards, Chess Boards for Ships' use, Warranted Bagatelle Boards, in Mahogany, Walnut, and Rosewood, from 6 feet to 10 feet, with India rubber Cushions, Adjusting Stands for ditto, Leather Travelling Desks, Despatch Boxes, Pocket Books, Gun and Pistol Cases, Knife, Surgical Instruments, and every description of Sample Cases, made to Order.

Always on hand, a large assortment of Dressing Case Fittings, and a large stock of well-seasoned materials. Parties wishing Dressing-Cases, &c., made and fitted to meet their own particular views, G. A. would feel great pleasure in drawing a plan of such, with a correct estimate of cost. G. A. would call particular attention to his stock of Presentation Desks, likewise for Commercial Correspondence, which for durability, neatness, and finish, cannot be surpassed. The Prices, on inspection, will be found fully fifty per cent. below the usual price charged for inferior articles. G. A. need only further allude, that every article being manufactured on the premises, under his own inspection, parties favouring him with their orders will find the prices strictly moderate, consistent with first-class workmanship.

N.B. Every description of the above articles repaired, relined, and refitted.

AGRICULTURAL IMPLEMENTS.

JOHN GRAY & CO.,

Agricultural Implement and Machine Makers, Engineers & Iron Founders,

UDDINGSTON, BY GLASGOW,

WOULD respectfully call the attention of AGRICULTURISTS in this Country, and MERCHANTS exporting AGRICULTURAL IMPLEMENTS for the Colonies, to the

IMPROVED PLOUGHS

made by them, which are now so well known and universally used in this Country, and most extensively exported to the various Settlements in NEW ZEALAND, VAN DIEMAN'S LAND, AUSTRALIA, the CANADAS, WEST INDIA ISLANDS, PORTO RICO, and other SPANISH COLONIES, UNITED STATES, &c. For Export, their Ploughs are generally so manufactured as to be taken in pieces, and Packed in Cases for Shipment, economising space to a very great extent, a dozen taking up only about the same space as one plough in bulk, without, in the slightest manner, impairing their strength or efficiency; and so arranged, that any person may easily put them together on arrival at destination. These Ploughs have repeatedly been awarded First Premiums by the Highland Society, and the English and Irish National Societies, &c. Their

IRON HARROWS

are also most excellently adapted for Exportation, manufactured on the very best principles, and pack into little space for shipment.

MEDICAL GALVANISM,

WITHOUT SHOCK OR PAIN,

SUCCESSFULLY APPLIED AS A

CURE FOR RHEUMATISM, PARALYSIS, INDIGESTION, AND NERVOUS DISORDERS.

MR. W. HARTHILL,

MEDICAL GALVANIST,

PUPIL OF MR. HALSE OF LONDON,

WHILE returning thanks for the liberal encouragement received since removing from Edinburgh to Glasgow, begs emphatically to state that his method of treatment is entirely new and peculiar to himself, giving NEITHER SHOCK NOR PAIN. Halse's Apparatus, used by Mr. Harthill, *differs entirely* from all the small galvanic or electric machines; it contains twelve pairs of silver and zinc plates, which give a mild and soothing sensation; and it is often successfully used after the common small machines have failed.

No. 53 WEST REGENT STREET, GLASGOW, is MR. HARTHILL'S own Permanent Residence.

CONSULTATION Daily from 10 till 2 o'Clock, and in the Evenings from 7 to 9.

TERMS MODERATE, and reduced to the Humbler Classes.

NO CHARGE FOR CONSULTATION MERELY.

MR. HARTHILL is the only person in Scotland who studied Medical Galvanism as a profession under Mr. Halse of London, and has been in practice since 1849.

CERTIFICATE FROM ONE OF THE MOST EMINENT PHYSICIANS IN SCOTLAND:—

"The galvanic treatment, as applied by Mr. Harthill, is most safe and beneficial, and in a greater variety of cases than is usually supposed; it strengthens the nervous and circulating systems, and in Palsy, Weakness of the Spine, and Nervous complaints, often performs miracles." (Signed) JOHN THATCHER, M.D.
Edinburgh, May 8.

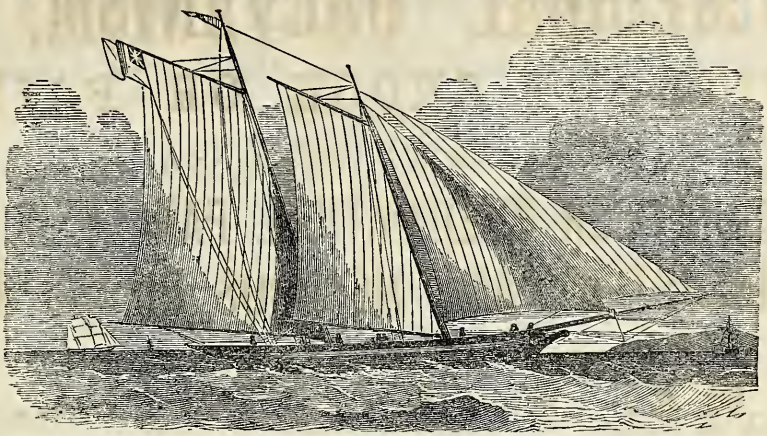

TO INVALIDS.—The high respectability of several parties attesting the good effects of Galvanic Treatment, is apparent to the most casual reader of Mr. HARTHILL'S Book of Testimonials. But, in addition to the printed certificates, the private testimony of Ladies and Gentlemen in Edinburgh and Glasgow, CURED by Galvanic Treatment, affords the

MOST SATISFACTORY PROOF

that it is an effectual and permanent Remedy in Dyspepsia or Indigestion, Tic Dolourcux, Lumbago, Sciatica, Paralysis, Asthma, Nervousness, Rheumatic and Neuralgic Pains, Deficiency of Nervous Energy, and several peculiar nervous disorders.

THE BOOK OF TESTIMONIALS MAY BE HAD GRATIS.

WEST COAST MISSION.

THIS Mission was instituted in Glasgow in December, 1855: it is strictly unsectarian; is an entirely Missionary movement, and is thoroughly aggressive in its character. During these eighteen months eight Auxiliaries have been formed, and are in active operation along the Coast from Port-Glasgow to Girvan, and other three societies are in course of organization. Five Missionaries are labouring in the above section of Coast, and a small Yacht, with four Agents, have also been procured in order to carry forward the work among the Islands.

The grand design of the Mission is to afford facility for the introduction of active Home Mission Agency, upon strictly unsectarian principles, in every needy locality on the Coasts and Islands of Scotland, with a special view to the improvement of the moral and religious condition of Sailors and Fishermen.

Our 300,000 British Seamen claim the deepest sympathy and most active exertions of the Christian Church. Towns with a population of 6,000, 7,000, and 8,000, of whom not more than 1,000 to 1,500 respectively are found to attend all places of worship, need Missionaries. The Coast Mission has supplied such places, and has an Agency fitted and intended to carry forward its extension to other localities more or less destitute.

THE benefits secured to the Members of the Western Friendly Society are—First, a payment of Ten Shillings and Sixpence per week during sickness, until the age of 70, thereafter converted into a permanent monthly payment of Ten Shillings during the remainder of life; and Second, a payment of Ten Pounds to the representatives of every Member upon his decease. Any Member may secure additional benefits to the extent of double—each or all—of the above amounts, by paying corresponding contributions.

Amongst the peculiar advantages enjoyed by the Members of the Western Friendly Society, are, the restrictions of Entry-Money to the merely nominal sum of one Quarter's Contribution—the right of representatives to the funeral-money upon the death of a Member, *however soon that event may occur after enrolment*—the right of Members to the receipt of Sick Benefit, when unable to attend to business, after the lapse of *one year* from date of enrolment—*the continuation of the* full sick allowance *during the* whole duration *of the ailment*—and the termination of all quarterly payment on the Member attaining the age of 70 years.

The Society has now been in existence for Twenty-Five Years, and from the success which has attended it, and its flourishing condition, the Members can, with confidence, recommend it to their fellow-citizens, as an Association in which persons are amply guaranteed the payment of the benefits contracted for.

A single payment may be made on admission, or subsequently, to redeem part or whole of the quarterly accounts.

An investigation of the Society's affairs was made as at the 1st January, 1856, and reported on by Will. Thos. Thomson, Esq., Manager of the Standard Life Assurance Company, and the following large increase made to the Sick Benefit out of a part of the surplus capital.

"That from and after the 1st January, 1857, and until the Fund set aside for the purpose be exhausted, or until a different Resolution following on a subsequent Quinquennial Report has been adopted in terms of the Rules, an increased Sick Benefit, at the rate of *3s. 6d.* per week, shall be paid to all Members upon the Society's Sick Roll, which payment shall be in addition to the *10s. 6d.* guaranteed by the Society. A like increase shall be paid on Additional Sick Benefits, both subject to the following Regulation:—No Member shall receive such Bonus during any one calendar year for a longer period than one week for every completed year of consecutive membership."

Copies of the Rules and Reports may be had at the Society's office, free of charge.

GLASGOW, *May*, 1857.

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret till the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its Medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO'S Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam-power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

THE AMERICAN FLOATING BALL WASHING MACHINE.

HONOURABLE MENTION AT THE PARIS EXHIBITION OF 1855.

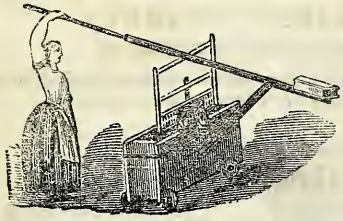

B. MOORE, 133 High Holborn, London, Patentee.

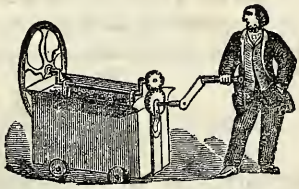

SOLE AGENT AND LICENSEE FOR SCOTLAND:

W. M. HILL,

107 WEST GEORGE STREET, GLASGOW.

THIS Machine, which solves the problem of mechanical washing most satisfactorily, and in principle more nearly resembles hand washing than any other invention hitherto brought before the public, has made rapid progress in America and on the continent of Europe. In Paris, during the Exhibition, no less than Four Thousand were sold. In this country the machine is fairly established in popular favour, as an indispensable apparatus for washing purposes in the economy of every well-arranged household. Public Institutions are also extensively adopting them. A short trial cannot fail to convince the most sceptical of both their efficiency and economy. The time required is short, the labour light, and the saving in soap and fuel one-half. Linens wear longer, and after a few washings become purer in colour, than by the old or any other method; and the finest and most delicate fabrics may be submitted to the action of the Balls without the slightest risk of injury.

For Household use—Wooden Lever, and 200 Balls, 24 in. by 12 in. £3.

In operation Every Day, from One to Three o'Clock, at 107 West George Street, Glasgow.

For Laundries, large Hotels, &c.—Crank Shaft, with Fly Wheel, and 240 Balls, 27 in. by 14 in. £6; 300 Balls, 40 in. by 15 in. £10; fine Lining 8s. & 10s. extra. Delivered free in London or Glasgow.

In stock, the celebrated YANKEE HYDRO-THERMAL CHURN.

Also, MANLOVE, ALLIOT, & Co.'s PATENT DRYING MACHINES, of various sizes, for domestic use, Laundries, and Public Institutions.

A VISITING COMMITTEE COMPOSED OF MEMBERS OF PARLIAMENT, CLERGYMEN, MAGISTRATES, PROFESSORS, &c., &c.

LADY SUPERINTENDENT.
SEVERAL GOVERNESSES.
FIFTEEN MASTERS.

SECRETARY—F. A. WOLSKI OF THE HIGH SCHOOL OF GLASGOW.

MASTERS.—Many of the Gentlemen employed at this Institution stand at the head of their profession in Glasgow, and no local Establishment, whatever be the Fee charged, can, on the whole, show superior teachers.

BRANCHES.—Scriptures, English Grammar, Elocution and Composition, History, French Grammar, Composition and Conversation, Geography, and the Use of the Globes, Arithmetic, Writing, Drawing, Piano-Forte, Vocal Music, Dancing, Calisthenics, and Needlework.

FEE, payable in Two Instalments, TWELVE GUINEAS a Session of Three School Quarters, for all the above Branches, the same amount and quality of Instruction being charged from £22 to £30.

SISTERS.—Two Sisters may, on paying One Fee, divide between them the Branches included in the Curriculum. Three or more Sisters are charged only Eleven Guineas each.

SINGLE CLASSES may, under certain conditions, be attended at a Fee far below that charged out of the Institution. The Fee for French, for instance, is from £2. 2s. to £3. 3s., and for Drawing, only £2. 2s. per Session.

ENGLISH GOVERNESS.—All the less advanced Pupils are assisted in their Studies by a well-qualified Governess.

PIANO-FORTE.—About two-thirds of the Pupils are taught by Messrs. A. C. Johnson, Howden, Macfarlane, Moritz, and Seligmann; the rest by competent Governesses.

OPINIONS OF THE PARENTS.—Upwards of One Hundred Letters from Clergymen, Physicians, Merchants, Magistrates, &c., whose daughters attended the Institution for three, four, and five years, may be seen by Visitors if required.

ACCOMMODATION.—The Premises occupied by the Institution consist of Seventeen Apartments, *all* of which are open to the Pupils, as no person resides in the house.

Enrolment.—Pupils are enrolled during the months of August and September. For particulars apply to the Secretary.

PATENT METALLIC STABLE-BUCKETS and HOUSE-PAILS, strong and durable, largely used at Public Works, also for export to the Diggings.

TANKS and CISTERNS for Ships' Stores.

THE attention of Oil and Colour Merchants, and others, is respectfully drawn to the above METALLIC CASKS and KEGS, as possessing strength, durability, lightness, cleanliness, and fitness for the several purposes to which they can be applied.

Being proof against changes of climate, leakage, evaporation, absorption, loss from negligent packing, &c., they are specially adapted for export, and possess advantages unknown in wooden vessels.

For the preservation of valuable and common Oils in MILLS and FACTORIES, the above Casks effect an important saving, and for such Establishments B. & Co. have made them with Glass Tube Gauges, so that the Stock on hand can always be ascertained at a glance.

TO SHIPBUILDERS & ENGINEERS

BROWN & CO. strongly recommend their Metallic TANKS and CISTERNS for Ships' Stores. They can be made to any size or *shape* required, and for holding Oil, Tallow, Peas, Barley, and various other commodities on shipboard, they are invaluable. For years past B. & Co. have been supplying them to Shipbuilders, and in every case they are giving satisfaction.

CHEMISTRY,

THEORETICAL, PRACTICAL, & ANALYTICAL,

AS APPLIED AND RELATING TO

THE ARTS AND MANUFACTURES.

BY

DR. SHERIDAN MUSPRATT, F.R.S.E., M.R.I.A.

Founder and Principal of the College of Chemistry, Liverpool;
Honorary Fellow of the New York College of Pharmacy; Fellow of the Royal Agricultural Society of England;
Membre de la Societe D'Encouragement; Membre de l'Academie Nationale de France;
Author of Outlines of Analysis; Chemistry of Vegetation; Influence of Chemistry; and Editor of Muspratt's Plattner on the Blowpipe
&c. &c. &c.

EMBELLISHED WITH A SERIES OF PORTRAITS OF DISTINGUISHED CHEMISTS.

Dedicated to Baron Dumas and Sir Robert Kane.

EACH day is fertile in discoveries. Knowledge is in a state of perpetual progression. The improvement we have witnessed, during the past few years, in the application of Chemical Science to every branch of the ARTS and MANUFACTURES, has tended to the advancement of the best interests of human enterprise, and justifies us in anticipating a further development of that skill and ingenuity which possess so material an influence on society.

To supply a want which is now beginning to be very generally felt, the Editor has undertaken, for the Publisher, the compilation of a work, to be styled, CHEMISTRY, THEORETICAL, PRACTICAL, AND ANALYTICAL, AS APPLIED AND RELATING TO THE ARTS AND MANUFACTURES. To trace with minuteness, and with fidelity of description, the mighty progress of the Chemistry of the Arts and Manufactures, would be a task which the Editor would not presume to attempt. To follow in their wake, and render available to his readers the accumulated results of many years' labor and intense application, giving a lucid insight into the several avocations wherein the science of Chemistry exerts a beneficial influence, will be his pleasing duty.

The Editor will endeavor to render the forthcoming work of the utmost practical importance, not only to the Manufacturer, but to those who, by experience, are aware that the mere knowledge of facts does not constitute scientific acquirement. For this purpose will be added, in every instance, the *rationale* of each fabrication, in order that inquirers of every description may be enabled to go through the several detailed processes.

This novel plan will be pursued in a popular form, so as to render the various subjects plain, even to the comprehension of those who are unacquainted with the mere principles of the Science. As an important feature in this work, every Article will be complete in itself; whereby the necessity of numerous references, so annoying to those who engage in studies of this description, will be obviated. The Editor feels confident, that by this arrangement he will also best serve the convenience of the practical consulter, whose time is often of too much importance to be frittered away by uncertain and irregular appeals to authorities. In a work of this description, very great originality cannot be everywhere expected; but due pains will be taken to incorporate, under the relative heads, every new fact and process, as well as every statistical notice that can, in any way, interest the Manufacturer. Dr. Muspratt, being well acquainted with gentlemen in every branch of Technology, enjoys peculiar opportunities of collecting such information. The works principally consulted, and from which details, *et cetera*, will be chiefly extracted, are the Encyclopedia Britannica, and the systems of Dumas, Berzelius, Kane, Ure, Poggendorff, Turner, Thomson, Donovan, Booth, Knapp, Malepeyre, Brande, Rosè, Gmelin, and others.

To facilitate the acquiring of knowledge, that the spirit of onward movement in the masses engaged in Chemical Arts and Manufactures may be preserved and fostered, is surely an object of laudable ambition. Such is the view of the present work; in constructing which, the Editor trusts he will not overlook anything which can possibly benefit his readers, by increasing their store of scientific intelligence.

Of all arrangements, the alphabetical is the easiest and most convenient, especially for those who are imperfectly acquainted with science; consequently, this mode of classification will be adopted.

Printed and Published by WILLIAM MACKENZIE, *London, Edinburgh, and Glasgow.*

The Work will be completed in about Forty Shilling Parts, each containing thirty-two pages, and every alternate Part will be enriched with a Portrait of some distinguished Chemist. The Illustrations will embrace every branch of the Arts and Manufactures, and will be intrusted to the most competent hands. No expense will be spared to render every department as perfect as the importanec of the various subjects, and the existing condition of human acquirements, will admit. Neither inverted commas nor brackets will be used in the work. When an extract is made, although it may be materially altered, the name of the author quoted will appear before or after it.

In concluding, the Editor would beg to impress upon the peruser of this Prospectus, the importance of Chemistry in all investigations relating to Technology. An eminent colleague justly remarks—She, like a prudent housewife, economizes every scrap. The horseshoe nails dropped in the streets during the daily traffic, are carefully collected by her, and resuscitated in the form of swords and guns. The clippings of the travelling tinker are mixed with hoofs, or the discarded woollen garments of the poor, and soon afterwards, in the form of dyes of the brightest hue—Prussian blue—grace the dress of courtly dames. The main ingredient of the ink with which the Editor now composes, was possibly once part of the broken hoop of an old ale barrel. Bones of dead animals yield the main constituent of lucifer matches; dregs of port wine, scrupulously rejected by the port-wine drinker in decanting his favorite beverage, are taken by him in the morning in the form of seidlitz powders, to remove the effects of an overheated brain: street offal, and the washings of coal gas, reappear, nicely preserved, in the lady's smelling-bottle, or are used by her to flavor blanc-manges for her friends. This economy of the Chemistry of Art is only in imitation of what we observe in the Chemistry of Nature.

The fabrication of coal-gas is an admirable example of the good conferred by Chemistry. Through its introduction, morality was improved and crime lessened, owing to the brilliant lighting of our streets making every passer-by a detective policeman. Without Chemical Science, Arts and Manufactures would soon become stationary in our country. The result of the Exhibition was one, says Dr. Playfair, that England may well be startled at. Wherever—and that implies in nearly every instance—Science or Art was inwrapped as an element of progress, it was seen as an inevitable law, that the nation which most cultivated it was in the ascendant—France, the birthplace of a Lavoisier and of a Dumas. Another savant writes:—Let us glance at those countries where Chemistry has been studied, and its assistance wooed, we find them workshops for the world, wherein excellence has been produced, and wealth flows in continuous and willing tributaries from the ends of the earth, to purchase and reward it. In this respect the magnificent display of artistic and scientific skill presented in the Great Exhibition of the Industry of all Nations, unfolded revelations which, trumpet-tongued, proclaim this truthful warning, that the country which aspires to hold a place in the world's career, dares no longer remain indifferent to the culture of practical science.

LETTERS TO THE EDITOR.

From BARON DUMAS, M.D., F.R.S.

Professor of Chemistry; Member of the Institute; Member of the Imperial Senate, &c. &c.

I have found, on my return from a journey, the first two Parts of your finely elaborated work on Chemistry. I thank you in the name of Industry and Science for having placed at their disposal the practical information which your high technological position has enabled you to collect.

Your great experience promises abundant and precise information. As a Frenchman, I have been highly gratified to see my name in conjunction with that of Sir Robert Kane in the dedication of the work.

You have wished to show that the sciences and their applications to the welfare of humanity do not admit either of the divisions which politics establish sometimes between nations, or of the rivalry between people which arises from a conflict of interests.

I accept with gratitude the new proof of sympathy which you offer to France in the name of England, and have the honour to be, &e.

J. DUMAS.

From PROFESSOR F. GRACE CALVERT,

Royal Institution, Manchester.

As a Subscriber and Chemist, I have great pleasure in taking this opportunity of expressing to you my opinion, that I consider your interesting work as the best and most complete one which has yet appeared of Chemistry applied to Arts and Manufactures; and that I am convinced it will prove to be of great utility to all Manufacturers, owing to the lucid manner in which each subject is treated, and the valuable information it gives on it; and allow me to add, that we should all feel deeply indebted to you for having brought out a work which will tend so much to popularize our valuable science.

F. GRACE CALVERT.

From SIR ROBERT KANE, M.D., F.R.S.,

President of the Queen's College, Cork, &c. &c.

I have received with very great pleasure the first Part of your new work on the Chemistry of the Arts, and I feel bound to express my sense of the remarkable skill and clearness with which the scientific principles are described, the manufacturing processes detailed, and the commercial circumstances discussed, as regards the important branches of manufactures with which the work so far has been occupied. I feel very much gratified at receiving so distinguished a mark of your consideration as the dedication to me of so valuable a work on Industrial Science, and I value it the more for being associated therein with the Baron Dumas, whose eminence as a Philosopher and Chemist I so much respect, and whose personal qualities and friendship I so much value, &c.

ROBERT KANE.

From PROFESSOR BRANDE, D.C.L., F.R.S.,

Of the Royal Mint.

I have this morning received the first Part of your splendid (for so I may call it, when compared with what has hitherto been done in the same way) and laborious work.

If you go on as you have commenced, there can, I presume, be little doubt that your work will supersede all similar publications in this country; and, indeed, so it ought, from its price and character. One thing only I apprehend, which is, that it will considerably extend beyond the bounds you have assigned to it; and I do hope, that by-and-by, when you come to find this, you will not be induced to cramp its extent. I should assign 50, instead of 40 Parts, as its probable extent.

THE REV. THOMAS SCOTT'S

COMMENTARY ON THE BIBLE,

ILLUSTRATED BY ORIGINAL VIEWS

OF THE

SCENERY AND REMARKABLE PLACES IN AND AROUND THE HOLY LAND, MAPS OF PALESTINE, ASIA MINOR, THE COUNTRIES OF PROPHECY, &c.

WITH AN INTRODUCTORY ESSAY,

AND NUMEROUS PRACTICAL, EXPLANATORY, AND CRITICAL NOTES,

BY THE

REV. W. SYMINGTON, D.D., GLASGOW.

PROFESSOR OF SYSTEMATIC THEOLOGY.

THE COMMENTARY of the REV. THOMAS SCOTT has been allowed, by the general consent of the Christian Church, to be the nearest approach to that most desirable and yet most difficult of all human productions, a faithful interpreter of the Divine Oracles. More than 12,000 copies had been printed in England before the year 1823, besides 25,000 copies printed at various times in the United States. The retail price of these Editions would amount to nearly £200,000. These facts have been gleaned from the statement of Mr. Scott's biographer; but since the date of his work (1823), a number of Editions have appeared, both in this country and America; and it may safely be affirmed, without fear of exaggeration, that upwards of half-a-million of money has been expended in the purchase of this invaluable work. The Publisher trusts that the great improvements he has made in the typographical execution, the addition of numerous beautiful Engravings, and more especially the able services rendered by Dr. SYMINGTON, will tend to rapidly increase this noble outlay; and feeling convinced that a Book like the present only requires to be made known *to insure a most extensive circulation, he has determined to reduce his prices to the lowest possible amount*, and to rely entirely upon the great demand which he anticipates will follow, as a remuneration for the expenses attendant upon the production of the work in its improved and illustrated form.

CRITICAL NOTICES.

"The capital excellency of this valuable and immense undertaking consists in its following, more closely than any other, the fair and adequate meaning of every part of Scripture, without regard to the niceties of human system."—*The Bishop of Calcutta.*

"It is an act of bare justice to state, that the writer has never consulted Mr. SCOTT'S COMMENTARY on difficult passages in vain."—*Rev. Hartwell Horne.*

"I believe that it exhibits more of the mind of the Spirit in the Scriptures than any other work of the kind extant."—*The late Rev. Andrew Fuller of Kettering.*

"This is a very fine edition of SCOTT, in double-columned quarto, and excellent alike in type and paper. Under the able auspices of Dr. SYMINGTON, it will doubtless receive whatever improvements it can derive from the progress of theological inquiry subsequent to the Author's times. It is printed from that edition which the venerable Commentator had corrected and improved for the long period of twenty years. Dr. SYMINGTON'S Essay is written with great power and eloquence; and, as a successful vindication of the Word of God as the only rule of faith and practice, it forms a highly useful and suitable introduction to the work."—*Scottish Guardian.*

"This new edition does infinite credit to the press of Glasgow. It is printed from the last edition which received the Author's corrections throughout, and is further enriched with an Introductory Essay, and numerous additional Notes, from the pen of our able townsman, the Rev. Dr. SYMINGTON. The plan of publication in Parts has, we think, been wisely adopted, as by that means it can be more conveniently purchased by a numerous class, than if the entire work was issued at once."—*Glasgow Argus.*

"We cordially welcome this *beautiful edition* of a most valuable work. It would be difficult to estimate too highly the boon thus conferred on the public. If typographical beauty and correctness, editorship of distinguished talent, and rich embellishments, can secure extensive circulation for any work, this edition of SCOTT'S Commentary bids fair to supplant, in general use and reputation, every other that has hitherto issued from the press."—*Scotch Presbyterian.*

"To say anything in praise of the well-known Commentary of THOMAS SCOTT is quite superfluous. It has long been regarded, by all who are qualified to form an opinion on the subject, as one of the most excellent and useful expositions of the Holy Scriptures existing in this or any other country."—*Dumfries Courier.*

"It gives us much pleasure to observe SCOTT'S Commentary in the course of being re-issued from the press in a handsome form, under the able superintendence of so distinguished an Editor as Dr. SYMINGTON, whose Introductory Essay forms part of the first Volume."—*Witness.*

"The present is certainly the best and *cheapest edition* of SCOTT'S Bible that has been offered to the public. In addition to the marginal references, &c. of the Author, the work is furnished with valuable additional ones, and an Introductory Essay by the Editor, Dr. SYMINGTON."—*Berwick and Kelso Warder.*

BY SIR JOHN STODDART, LL.D.;

AND A SKETCH OF THE ORIGIN AND PROGRESS OF THE ART OF WRITING,

BY HENRY NOEL HUMPHREYS,

Illustrated with Richly-coloured Examples, Facsimiles, and other Embellishments.

DR. WEBSTER'S DICTIONARY has long been considered the very best yet published. The Work has passed through a number of editions, and in each improvements have been made by the addition of new matter, and the correction of previous errors, until the Work is now emphatically THE STANDARD DICTIONARY OF THE ENGLISH LANGUAGE. One important feature of this book is, its being a SYNONYMOUS DICTIONARY. Under each of the important words, all others having the same general signification are arranged together, except in cases where they have been previously exhausted in framing the definitions. This arrangement will be found of frequent use even to those who are practised in composition, while it affords important aid to young writers in attaining grace, variety, and copiousness of diction.

The chief value of a Dictionary consists in its *definitions*—in its giving a clear, full, and accurate exhibition of all the various shades of meaning which belong by established usage to the words of a language. It is in this respect especially that DR. WEBSTER'S Dictionary has been generally considered superior to every other; and to this point, therefore, the labours of the present Editor have been mainly directed. No efforts have been spared to consult the most recent and valuable works, not only in lexicography, but in the various departments and the arts embraced in the Dictionary. As these subjects are in a state of continual progress, every important word in its various applications has been diligently examined and compared with the statements made on each topic by the latest and most approved authorities. In addition to this, the Editor has been assisted by various distinguished Professors, who have revised the definitions belonging to their several departments.

On the subject of PRONUNCIATION much labour has also been bestowed in this Edition. A careful comparison has been made with the latest authorities, and wherever changes seemed desirable they have been introduced. Many thousand words have been respelt, and no effort has been spared to render the work in all respects a COMPLETE PRONOUNCING DICTIONARY.

The NEW WORDS that have been added amount to several thousands, and the Dictionary now contains 27,000 words more than "TODD'S Edition of JOHNSON."

This Edition will include, for the first time, an Introductory Essay on the Philosophy of Language and Universal Grammar, by Sir JOHN STODDART, LL.D.; and also a Treatise on the Origin and Progress of the Art of Writing, by HENRY NOEL HUMPHREYS; illustrated by Specimens of the art of writing in all ages (many richly coloured), and an abundant Series of Facsimiles arranged in Chronological Order to exhibit the gradual advance of the art; the whole Revised by the Author expressly for this Work.

This greatly improved and enlarged Edition of WEBSTER'S Dictionary is carefully printed upon superfine imperial paper, in a clear readable type, in double columns, and will be completed in Thirty-Six Shilling Parts; the whole forming two handsome imperial 8vo volumes.

The object of the present undertaking is to PROMOTE THE EDUCATION OF THE WORKING CLASSES—to afford them an easy means of acquiring every kind of useful knowledge. There are already in existence many periodicals, designed to amuse, instruct, improve, and advance the interests of the people generally, or of particular classes. Without disparaging these—many of which are excellent, so far as they extend—we do not find any one upon the comprehensive plan, or in the peculiar style, adapted to the wants of the people. Some important department is omitted by each. Few follow a systematic course, and the working man cannot afford the means or the time for the perusal of more than one or two.

There appears a want of *some one useful work*, affording—at a cheap rate, and in such portions as may be easily perused by those whose time is chiefly occupied in providing for the wants of the day—the means of acquiring all that knowledge which will assist them to perform well the various duties of life; which will improve, as men, workmen, and citizens, those who should have been taught by a National System, in schools and colleges for the working classes, from treatises used there as text-books. But this is not done, nor is it likely that it will be effected soon. We therefore propose, by our present publication, *to place the materials for self-instruction, in every department of truly useful knowledge, within the reach of all classes.* The periodical form is popular, and subscribers to the work will, in the course of time, be possessed of a complete system of instruction in every useful department of human knowledge. It will provide them with agreeable and interesting reading for themselves and their families, and it will, at the same time, furnish them with every information regarding the principles of their arts.

Although suited to all classes of readers, this work is principally intended to strengthen the intellect, elevate the moral character, and improve the social condition of the operative classes, by instructing them in the principles and practice of their several vocations. Notwithstanding the boasted facilities possessed by the working classes of acquiring education, the present work will be found a useful auxiliary. The general way in which the working classes attain scientific knowledge is, by attending Mechanics' Institutions. The benefits of such institutions cannot be too highly extolled; but the experience of every student must teach him that something more than the fleeting words of the lecturer is necessary to make his studies satisfactory. Reading and investigation are necessary; and although our libraries afford an easy access to books, those books cannot be retained long enough to afford time to digest their contents. The next resource is to purchase books; but the high price of scientific works places them beyond the reach of working men. There is, therefore, a great desideratum, which it is the purpose of the IMPERIAL JOURNAL to supply. Each illustrated essay on Science will be a lecture—

THE GREAT EXHIBITION,

WITH DESCRIPTIVE LETTERPRESS, AN ESSAY ON THE STEAM-ENGINE, AND A HISTORY OF THE RAILWAYS OF GREAT BRITAIN.

By WILLIAM JOHNSON, Esq., Assoc. Inst. C.E., Mem. Inst. Mech. Eng.

The year 1851 will be a memorable one in the annals of the twin pursuits of Mechanics and Engineering. From that epoch will future historians date the commencement of an unparalleled impetus to that distinguishing feature of the Englishman—his aptitude for changing the forms of matter, and directing nature's inorganic powers to the performance of the drudgery of human life. With the view, then, of preserving and fostering the spirit of onward movement in the masses engaged in Constructive Mechanics, the Publisher has been induced to prepare the "IMPERIAL CYCLOPÆDIA OF MACHINERY." The intention of this Work is to afford the Mechanic and Engineer an opportunity of becoming possessed, at a cheap rate, of a series of accurate representations of some of the best Machinery now in use, with all the latest improvements, including many of the most important from the Great Exhibition. They will be on a scale large enough for the practical Mechanic to work from; and being got up under the immediate superintendence of eminent practical Engineers, their fidelity in every detail may be relied upon. Mr. Johnson's Essay on the Steam Engine, and Historical Sketch of the Railways of Great Britain, will be found a most valuable addition.

The Work will open with the important subject of **Screw Propelling**, giving an account of the various schemes which have been brought forward, both in this country and abroad, for propelling by a submerged helix or screw; to which will be added, **An Historical Account of the Practical Introduction of the Screw to Ocean Navigation, illustrated by 70 Engravings of its different forms, and a Series of large Plates, showing the various descriptions of Engines, as constructed by the first makers, for giving motion to the screw.**

To the whole will be added, a Treatise on a New Method of Perspective, applicable to Machinery, accompanied by diagrams illustrative of the principles of Drawing, and two beautiful designs of Marine Engines, drawn on a large scale to the angle of 45°. This method shows distinctly the plan, side and end elevations, besides a considerable portion of the work which could only be shown otherwise in detail. It conveys, at first sight, the object represented to the mind of the most inexperienced; and, it is believed, will ultimately, in a great measure, supersede the necessity of making expensive models.

The Work will be printed on fine Imperial Paper. Each Part will contain four pages Plates, and four or eight pages Letterpress, and will be published on 1st and 15th of each Month.

MACHINERY

OF THE

ROYAL MAIL STEAM-SHIPS,

"PERSIA," "ARABIA," AND "LA PLATA,"

CONSTRUCTED BY MESSRS. R. NAPIER & SONS;

Consisting of a Complete Series of Shaded Engravings, representing the Engine Room, Engines, and Boilers; with Diagrams, Description of the Vessels, Description and Action of the Engines and Boilers, Materials used, Table of Dimensions, &c.

OPINIONS OF THE PRESS.

From the GLASGOW ADVERTISER.

Every person that understands the English language, has learned to look upon the performances of the noble mail steamers that cross the Atlantic with so much regularity and speed in winter and summer, in sunshine and storm, as the very perfection and triumph of steam navigation. So regular are their performances, and so certain is their speed, that should they fail to be even an hour beyond their specified times in arriving, no matter what the weather may be, instant alarm is felt by the merchants of Liverpool, Manchester, Glasgow, and London regarding them. But although much is known regarding the characters of these fine vessels, very little is known regarding the inward details of their construction. The present work meets this ignorance, and every one that chooses to read and to scan it, will become as well informed about them as the man that designed and constructed them; and that, too, without any great "cudgelling of the brain," or straining of the optics, or racking of the understanding. The plates, which form the principal and most expensive portion of the work, give a complete idea of the working of the engine, and without even oral explanation not only illustrate its motion, but what may be called its pneumonic and organic action. Altogether, this work is one of the most comprehensive and useful treatises upon the subject to which it refers, that possibly could be published. It is alike interesting to the general reader and to the man of science, and will go far to further the advance of steam navigation, not only in this country, but throughout the world. The steam-ship *Persia*, the largest iron steamer that has yet been launched, although much larger in size than the *Arabia* and *La Plata*, is, both as regards her machinery and boilers, designed exactly upon the same principles as those of the above-named vessels.—The table of dimensions of the several mail steamers contains all particulars regarding her machinery, &c.

From the GLASGOW HERALD.

The work before us is no small testimony in favour of the truly liberal spirit with which the commerce and trade of Glasgow are conducted. Here before us is laid, in admirable drawings, the entire structure of those marvellously beautiful, symmetrical, and powerful steam-engines, which traverse every sea, which have been employed to carry men and munitions of war to the scene of the greatest conflict the world ever knew; and no attempt is made to cheat the public with false or imperfect drawings of that which forms the staple trade of the Napiers of Glasgow, which has made them individually as famous as any of the great men of the name who stand out in science, in arts, and in arms amid the bright characters of the world's history. No petty jealousy has caused them to make a secret of their craft. Their engines are the means of rapid and secure transport between the Old and the New Worlds; and for his superiority in engine work, the present head of the Napiers in this city has been honoured before the world by the *cordon* of our Imperial Ally.

We recommend this work to the especial attention of all engineers and men of science and cultivated intellect, and we are sure that it will not be long before it is found wherever mechanical science is taught, wherever commerce or the arts are nourished and thrive.

From the SCOTTISH GUARDIAN.

It is an act of great liberality on the part of Messrs. Robert Napier & Sons to authorise the publication of a work, in which the minutest details of their wonderful marine engines are represented and described. The illustrated description of the engines and boilers of the *Arabia* and *La Plata*, applies equally to the *Persia*, which was launched in July last, and we need not point out to engineers and mechanics the value of such a work coming before the public with the imprimatur of the Napiers.

From the ART-JOURNAL.

It is rarely we are called upon to notice such a work as this. We cannot enter into the mechanical merits of these plates, but we can wonder at the magnitude of the machinery, its complicated parts, so beautifully fitted and adapted to each other, and at the science which contrives the whole, and puts it into working order: the merit of this is due to the constructor, Mr. Robert Napier. The engravings are admirably executed from Mr. Kirkaldy's drawings, who had a medal awarded to him at the Paris Exposition for them and others exhibited by his employers.

From the CIVIL ENGINEER AND ARCHITECT'S JOURNAL.

The magnificent fleet of steam-ships built for the British and North American Royal Mail Steam-Packet Company, presents an example of commercial enterprise and admirable naval construction of which this country may well be proud. Including the great leviathan *Persia*, the company has had built fifteen first-class steam-ships within the last fifteen years, the smallest of which exceeds eleven hundred tons burthen. The size of these ships has been progressively enlarged since the commencement of the undertaking; each succeeding ship has been greater than the preceding ones, till the last, the *Persia*, is three times the size of the *Acadia*, which was the earliest afloat of this steam fleet. It is most desirable for the advancement of naval engineering science, that the latest and most perfect works should be thus made public; and we have no doubt these drawings will be carefully studied by all who are engaged in similar constructions, and are anxious to improve the application of steam-power navigation. The drawings occupy nine large plates, beautifully engraved by Mr. Petitcolin and Mr. G. B. Smith, and comprise sections of all the essential parts of the machinery, some of which are on a scale of half-an-inch to the foot.

THE IMPERIAL DICTIONARY OF

UNIVERSAL BIOGRAPHY:

A SERIES OF ORIGINAL MEMOIRS

OF

DISTINGUISHED MEN,

OF ALL AGES AND ALL NATIONS.

BY WRITERS OF EMINENCE IN THE VARIOUS BRANCHES OF LITERATURE, SCIENCE, AND ART.

A DICTIONARY of UNIVERSAL BIOGRAPHY, when faithfully and judiciously executed, is an accurate panorama of the celebrated members of the human family, from its origin to the present time; exhibiting, for approval or reprobation, every variety of character under every diversified circumstance. It is also a record of the origin and gradual progress of every department of science or art. In the pages of such a work, every reader, whatever his peculiarity of talent or taste, will meet with something of special interest; and from every prominent memoir, all may derive some lesson of practical wisdom, some incentive to industry and virtue. In proportion, however, to the value of a sterling and enlightened system of Biography, is the difficulty of the execution. Fiction must not be allowed to pass for reality —traditions and assertions must be scrutinised—conflicting testimonies must be patiently and dispassionately compared and appreciated. Besides, the space to be travelled over is immense; and the attention accorded to each successive portion should exactly correspond to its respective importance. Keeping these considerations constantly in view, and aiming unswervingly at the strictest *historical justice*, the conductors of the present publication indulge the hope, that no sectarian spirit, either of a religious, a literary, or a political nature, will be found to have exerted influence either on the selection of the subjects, the comparative length of the sketches, or the tenor of any statement the work may contain.

The Work will be Published in Parts at Two Shillings each. Every Part will contain Sixty-four Pages of Letterpress, and Two Portraits engraved on steel, copied from original and authentic sources, and executed in the highest style, by some of the first artists of the day. To give additional interest to the Work, Biographical Sketches of eminent Individuals still *living* will be inserted. These will be distinguished by an asterisk before their names. The initials of the contributor will be appended to each article.

THE ROYAL INSURANCE COMPANY.

The City Article of the LONDON TIMES, of the 24th July last, states that the transactions of the Royal Insurance Company "appear to have been of a perfectly satisfactory character." It includes the following statements confirmatory of that opinion:—

PREMIUMS.

The Premiums of Nine Offices enumerated are stated to be.....**£824,924**
Of which the Royal alone amount to..... **371,957**
being **82** per cent. of the accumulated Premiums of the remaining Eight Companies.

EXPENDITURE.

The expenditure of Insurance Companies is at present attracting the anxious attention of the Public. The statement of "The Times" has elicited the following remarks from a contemporary:—"Here, again, the Royal Insurance Company occupies a position of honourable pre-eminence: for while its expenses of management, spread over a period of three years, *have been less than* **20** *per cent.*, those of five other offices, extending over an equal time—for we omit those which have been established within three years, or we might make a much stronger case—have varied from **22** to **74** per cent., and in one case have been as high as **111** per cent. on the receipts.

RESOURCES.

In like manner, the entire Funds in hand of thirteen offices is quoted in "The Times" at £1,238,688, including the Royal, which alone is **£372,394**, and which is, therefore, equal to **43 per Cent.** *of the accumulated funds of the remaining twelve offices;* or, to make the VAST RESOURCES of the Company still more manifest, it may be stated that, putting aside the three largest offices named, (the funds of the greatest of which barely exceed *one half* of those of the "Royal,") *the united funds of the remaining ten offices do not equal the funds of this Company.*

The favourable position in which this Company is placed in "The Times," article, would have been even more prominently shown if the experience of other years than those taken had been selected.

As an instance, the following is the result taken from the accounts of the Company for the year 1855:—

Fire Premiums and other Receipts, not including Life...	**£149,812 13 7**
Losses, Expenses, and Dividend.....	**131,684 13 8**
Balance as a Reserve from one year's transactions alone...	**18,127 19 11**
Funds in hand, without including ample Reserve for Life Liabilities ..... Upwards of	**£400,000 0 0**

LIFE

LARGE BONUS DECLARED 1855,

Amounting to £2 per cent. per Annum on the sum assured, being, on Ages from Twenty to Forty, 80 per cent. on the premium.

PERIODS OF DIVISION—EVERY FIVE YEARS.

The accumulated Expenditure of 54 *Life Offices* enumerated by *The Times* of 12th August last, compared with their amount of Premium and Interest, is stated to be.....61 per cent.
The Expenditure of the Royal Insurance Company is only ...**13** per cent.

PERCY M. DOVE,
Actuary and Manager.

EXTRACTS FROM REPORT FOR THE YEAR 1855.

"It is satisfactory to say that the only variation in the duty of the Directors on this occasion is to present a statement exhibiting a still more favourable result than it has ever been their good fortune to announce for a like period of time, since the commencement of the business of the Establishment.

"With respect to the Life Branch, it is hardly a matter of surprise that the additions made to the existing Policies in that Department in August last, in the shape of a bonus of unusual extent, should have attracted the attention of the Public, both in the United Kingdom and elsewhere. It is, however, believed, that

Few could possibly have anticipated such an Increase of Business as has accrued to the Company since that time.

"The increase of the Annuity and Endowment Accounts (hitherto forming but small branches of the business) presents a still more striking contrast, comparing past years with the last 12 or 18 months. The Purchase Money for Annuities received in 1855 exceeds that of the preceding year **more than three-fold,** whilst the amount of Premium for Endowments received within the last 6 months is **297** per cent. in advance of the entire year 1855.

"Indeed, there is abundant evidence to show that the favourable notices which have been taken of the Company during the last year, to an extent entirely without parallel, consequent on the success of the Life Fund and the large Bonus it has been able to afford, have not only procured to that Branch an increase of business to the extent announced, but have given a fresh impulse to the Fire Department. They have, in fact, created a large addition to a Revenue which had already arrived in magnitude at a point to which

Only some Two or Three, out of all the numerous Companies established in the Empire, during the last 150 Years have attained.

"It is believed that a statement of the growing extension of the Company's Receipts could not have had a more perfect corroboration than that which has opportunely been presented by the 'Government Returns of Assurance Companies,' published under Parliamentary authority, within the last few days.

"An inspection of the accounts contained therein will reveal the fact, not only that the Royal Insurance Company

Far exceeds in its Fire Business all other Companies subsequently established.

But that, with the exception of one London Company founded under the auspices of the Legal Profession, the amount of Fire Premium stated in this Report to have been freely declined by this Company in the year 1855, exceeds, in itself alone, an entire moiety of the largest, and is actually more than the *total* revenue of most Fire Insurance Companies established within the last eleven years.

"The Directors have never made a Report of the affairs of the Company with a clearer conviction that its statements will give entire satisfaction to the Proprietors, and full confidence to the Public."

The *Morning Herald* Money Article, of August 7, 1856, says:—"From the report of the annual meeting of the Royal Insurance Company, which appears in another column, we observe that their revenue from fire premiums during the past year amounted to

£130,000,

PLACING THEM AMONGST THE LARGEST ENGLISH FIRE OFFICES.

Their profits on this branch during the same period appear to have been sufficiently large, amounting to **£42,849**, which warranted a dividend of **5s.** per share, equivalent to **12½** per cent. on the original capital, while a sum, *nearly equal to the amount of dividend*, was carried to the reserve fund, and written off against the amount expended in rebuilding their offices in London and Liverpool. This Company, therefore, appears to have met with even more than its proverbial success during the past year. The prosperity of the life branch appears to have been equally remarkable. We commented last year upon the successful result of this Company's life business, which enabled them to declare a life bonus *rarely equalled in amount*. A main element in the great prosperity of this Company's life branch appears to be that *it is comparatively unweighted with those expenses which press so heavily upon many life offices*, as the fire branch, from its magnitude, relieves it of the larger proportion of the general expenses of the Company."
